**MEDICAL WANTS ORDINANCE****SUPPLY OF DRUGS TO ESTATES**

\*\*\*\*\*

An estate or group of estates which maintains a dispenser and a suitable building for a dispensary will be allowed a certain amount of drugs free by Government. Government encourages the establishment of such dispensaries in the hope that treatment being placed within easy reach of the labourer, *he* will avail himself of it at a much earlier period in his illness than he probably would of that at the Government dispensary, which is, as a rule, at a considerable distance from him.

At the earlier period the illness would most probably yield to such ordinary treatment as the estate dispensers are qualified to give ; this would tend to lessen the number requiring hospital treatment, and eventually the hospital mortality, but Estate Superintendents are reminded that the employment of a dispenser does not free them from their obligations to their labourers under "The Medical Wants Ordinance, (Chapter 176).

Estate dispensers are not sufficiently trained, and are therefore 'not considered qualified to treat serious illness, and in all such cases the District Medical Officer should be sent for to see the patient in terms of section 12 (a) of the Medical Wants Ordinance. Superintendents are requested to see this rule duly carried out.

1. Superintendents may obtain such drugs as those prescribed, at cost price from Government dispensaries to the total value of Rs. 5 for cash with order, provided that no quantity of any one drug of the value of more than Re. 1 shall be supplied at any one time ; and from the Civil Medical Stores, Colombo, to any amount, on application to the Superintendent on Medical Form 150 accompanied by a remittance.

## DISEASES LABOURERS ORDINANCE

## CONSTRUCTION OF L.A. BOITEERS' LINES

1. In these rules, "Lines" means any building or collection of buildings used or intended to be used either temporarily or permanently for the housing of labourers employed on estates.

1a. Lines shall be constructed so as to consist of a single row of rooms (hereinafter referred to as single lines). Provided, however, that the Director of Medical and Sanitary Services may, if satisfied that the nature of the ground and the available sites make it impracticable to construct single lines, permit the construction of lines consisting of two rows of rooms back to back (hereinafter referred to as "Back to back lines"). Every decision of the Director of Medical and Sanitary Services under this rule shall be subject to appeal to the Governor.

2. No line shall consist of more than 24 rooms (12 on each side) in the case of back to back lines or 12 rooms in the case of single lines.

3. After the promulgation of these rules no owner or superintendent shall erect any permanent cooly line, except in accordance with plans or designs approved in writing by the Director of Medical and Sanitary Services. Such plans shall in all respects conform with the requirements and standards set forth in Schedule A to these rules, and the owner or superintendent shall comply with the other requirements of the said Schedule A.

4. The Director of Medical and Sanitary Services may permit the construction of temporary lines for the accommodation of labourers on an estate or a period of four years from the date of first occupation, but in no case shall the period of occupation exceed four years. The date of such construction shall be reported to the Director of *Medical* and Sanitary Services who may at his discretion forbid the further occupation of such lines at any time within the said period of four years. Such temporary lines shall in all respects conform with the requirements and standards set forth in Schedule B to these rules, and the owner or superintendent shall comply with the other requirements of the said Schedule B.

5. Should it at any time appear to any Inspecting Medical Officer that any labourers' lines are dangerous to the health of any labourers housed therein, he shall report accordingly to the Director of Medical and Sanitary Services and shall with his report submit recommendations as to the action necessary in his opinion to be taken. On receipt of such report, the Director of Medical and Sanitary Services may, after such inquiry as he shall deem necessary, serve on the superintendent or owner an order in writing directing him to take, within a period to be specified in the order, such steps as are in the opinion of the Director of Medical and Sanitary Services necessary, to render the lines fit and safe for occupation; provided, however, that no lines constructed or under construction before the coming into operation of these rules shall be condemned so long as they are in the opinion of the Director of Medical and Sanitary Services maintained *in a* sanitary condition.

6. An appeal shall lie to the Governor from any decision or order made under the above rules by the Director of Medical and Sanitary Services. Such appeal shall be in writing and shall be forwarded to the Medical Wants Committee for submission to the Governor whose decision shall be final.

7. Labourers' lines shall be built on dry, and, where possible, on raised sites, and, where the lie of the land allows, on the eastern slope of a hill, and where a sufficiency of good drinkable water is easily accessible. In malarial districts labourers' lines shall be, whenever possible, at a distance of at least 500 yards from swamps and marshes and above the highest flood level. No lines shall be erected within ten feet of any bank or cutting which interferes with the lighting, ventilation and drainage of a line. Where any existing labourers' lines have been erected within ten feet of any such bank or cutting the superintendent or owner shall cause the bank to be cut back, or, if that is not possible he shall so drain the bank above and below *as* to prevent dampness of the linefloor.

## Crown Land

In general all undeveloped land is presumed by law to be the property of the Crown till the contrary is proved. Legislation has been passed providing machinery for dealing with the claims of private persons to land to which the presumption in favour of the Crown applies. The law on the subject is contained in the Land Settlement Ord. (Chapter 319 of the Legislative Enactments). A special department—the Land Settlement Department—has been organized for the purpose of systematically settling claims to all undeveloped land in the Island under this Ordinance.

The Ordinances in force regulating the disposal of Crown land are—

- (1) The Land Development Ordinance (Chapter 320 of the Legislative Enactments).
- (2) The Crown Lands Claims Ordinance (Chapter 318 of the Legislative Enactments):

Till recently it was the practice not to advertise any Crown land for sale or lease unless someone had applied for the land. When such an application was received steps were taken to survey the land and eventually to dispose of the freehold or leasehold by public auction. The present policy of the Government is to take the initiative in disposing of Crown land. As a necessary preliminary, the Crown land in each village is "mapped-out," that is to say it is allocated to various definite purposes such as—

Village expansion ;

Village forest ;

Village pasture ;

Chena cultivation ;

Colonization;

**The** requirements of local authorities ;

Alienation to middle-class Ceylonese ;

Alienation to any persons whomsoever irrespective of the class or race to which they belong.

Once a village has been mapped-out the Revenue Officer in charge of the district takes the initiative and disposes of the lands for the various purposes for which they have been mapped-out.

A further change is in the tenure of land alienated by the Crown. Hitherto the only tenures have been freehold and leasehold, but a new tenure was introduced by the Land Development Ordinance. The principal features of this tenure are as follows :

- (a) The owner is obliged to cultivate the land, or utilize it in some other way specified in the grant.
- (b) The owner is required to make a small annual payment to the Crown in perpetuity.
- (c) The land cannot be subdivided beyond the limit specified in the grant, or held in undivided shares smaller than the fraction specified.
- (d) The succession to the land is not regulated by the ordinary law of inheritance, but by special rules designed to prevent the land from being subdivided.
- (e) In certain cases, the owner is forbidden to lease or mortgage the land except to the Crown, and may not otherwise dispose of it without the Revenue Officer's consent.

In rural areas, the general policy now is to alienate Crown land required for agricultural purposes by peasants and Ceylonese of moderate means under the Land Development Ordinance. In urban areas the mode of alienation is normally by long lease. Outright sales of Crown lands have been reduced to a minimum.

The Ordinance provides adequate machinery for enforcing the conditions of the tenure.

It is the present policy of Government not only to take the initiative in bringing land forward for disposal but also to provide a positive stimulus to landless villagers to leave their homes and either take up land in less congested villages or found new villages in undeveloped district. Thus, colonization schemes have been started in various parts of the Island, and those willing to take part in these schemes have been helped with grants of land and money. Provision is made for affording financial assistance to deserving colonists and peasants who take up land under the new tenure,

The protection of game in Ceylon is regulated by Ordinance No. 2 of 1987. On the 23rd of May, 1894, a Society called "The Game Protection Society of Ceylon" (later changed to "Ceylon Game and Fauna Protection Society") was formed to prevent the elimination of game in Ceylon by destruction of animals for trading purposes, to further the interests of legitimate sport and to conserve one of the food supplies of the inhabitants. The annual subscription is Rs. 10. This subscription entitles the subscriber to use the Society's watchmen as trackers. The watchers are allowed only to track for Members of the Society.

## WATCHERS

Excluding the Government watcher's, there is 1 watcher paid by the Society in the Borten Plains/Bo Pats area.

## GAME LICENCES

- A game licence costs Re. 2'50 and allows the holder to shoot one deer. The licence is obtainable from the Government Agent of the Province in which it is to be used. The Government Agents, at their discretion, can issue up to three or more licences to one applicant. A game licence does not include elephants or buffaloes. For these animals separate licences have to be obtained.

## CLOSE SEASONS

May 1st to October 31st.

For further information relative to Game Protection in Ceylon, application may be made to C. H. Bois, J. M. Robertson & Co., Colombo, Hon. Secretary, Ceylon Game and Fauna Protection Society.

### Imposition of Income Tax

#### Incidence of Income Tax

5 (1) Income tax shall, subject to the provisions of this Ordinance and notwithstanding anything contained in any other written law or in any convention, grant, or agreement, be charged at the rate or rates specified hereinafter for the year of assessment commencing on the first day of April, 1932, and for each subsequent year of assessment in respect of the profits and income of every person for the year preceding the year of assessment—

- (a) wherever arising, in the case of a person resident in Ceylon, and
- (b) arising in or derived from Ceylon, in the case of every other person,

but without prejudice to any provisions of this Ordinance which enact that tax is to be charged in particular cases in respect of the profits and income of a period other than the year preceding the year of assessment.

(2) For the purposes of this Ordinance, without in any way limiting the meaning of the term, "profits and income arising in or derived from Ceylon" includes all profits and income derived from services rendered in Ceylon, or from property in Ceylon, or from business transacted in Ceylon whether directly or through an agent.

#### Income Chargeable with Tax

6 (1) For the purposes of this Ordinance "profits and income" or "profits" or "income" means—

- (e) dividends, interest, or discounts ;
  - (f) any charge or annuity ,
  - (g) rents, royalties, and premiums; and
  - (h) income from any other source whatsoever, not including profits of a casual and non-recurring nature.

Where the annual value of any land and improvements thereon or of any place of residence has been assessed for rating purposes by a local authority, such annual value, adjusted as may be necessary in respect of rates paid by the owner and the aforesaid deduction of twenty per cent, for repairs and other expenses, shall be the nett annual value for the purposes of this section, unless in the opinion of the Commissioner the assessment made by the local authority does not accurately represent the annual value of the land and improvements or place of residence in the year for which the nett annual value is being determined. Where the annual value has not been assessed by a local authority, the nett annual value shall not in any case exceed five per cent. of the capital value of such land and improvements or place of residence.
  - (c) The rental value of any place of residence shall be the nett annual value as defined in paragraph (b) of this subsection with the addition of rates paid by the owner and twenty-five per cent. of such nett annual value on account of repairs and other expenses: Provided that for the purposes of sub-section (2) (a) (iii) and (iv), any excess of rental value over twenty-five per cent. of the profits described in sub-section (2) (a) (i) shall be disregarded.
  - (d) The income or profits arising from rents of land and improvements thereon shall be the gross rent which is receivable and can be recovered after deducting rates borne by the owner and, where the owner undertakes to bear the cost of repairs, twenty per cent. of the balance, but shall not be less than the nett annual value after deducting therefrom any part thereof deemed to be the income of the occupier, due provision being made for any period in respect of which no rent is receivable or can be recovered.

(9) Where for any year of assessment the taxable income of *an* individual exceeds, in consequence of the inclusion in his statutory income of a sum received in commutation of pension, the sum to which it would amount if no such commutation were included, the excess shall be chargeable, notwithstanding anything contained in any other sub-section, at the rate ascertained by dividing the tax payable by him for the preceding year of assessment by the amount of his assessable income for such preceding *year*:

Provided that where any such individual was resident in such preceding *year* of assessment and no tax was payable by him for that year of assessment, the said excess shall not be chargeable:

## CHAPTER VIII.

**Provisions Relating to Special Cases**

## A.—HUSBAND AND WIFE

**Wife's Income**

(1) For the purposes of this Ordinance, the assessable **income** of a married woman, for any year of assessment during the subsistence of her marriage, shall be deemed to be part of the assessable income of her husband for that year and shall be charged accordingly:—

Provided that—

(a) Where the marriage subsists during part only of a year of assessment, the forgoing provisions of this sub-section shall apply only to such part of the wife's assessable income for that year of assessment as bears to the whole of such income the same proportion as the number of days in that year of assessment during which the marriage subsists bears to the total number of days in that year;

(b) Where the husband is resident and the wife non-resident during the whole or any part of any year of assessment, the assessable income of the wife in that year of assessment shall, for the purpose of this section, be determined as though she were resident during the whole of that year, or that part of that year, as the case may be: and

(c) Such part of the total amount of the tax charged to the husband as appears to the Commissioner to be charged in respect of the income of the wife may, if necessary, be collected from the wife, notwithstanding that no assessment has been made upon her, and the provisions of this Ordinance as to collection and recovery of tax shall apply accordingly.

(2) For the purposes of this section; a marriage shall not be deemed to subsist if the wife is living apart from her husband under the decree of a competent court or a duly executed deed of separation.

**Separate Assessment of Husband and Wife**

22 (1) Notwithstanding the provisions of section 21, any husband or *wife* may give notice in writing to the Commissioner before the first day of June in any year of assessment requiring that tax for that year shall be assessed, <sup>and the tax shall be</sup> recovered separately on the income of the husband and on the **income** of the wife as if they were not married, and all the provisions of this Ordinance shall thereupon apply to each of them accordingly.

(2) Where tax is assessed separately as a result of a notice under sub-section (1), the incomes of the husband and the wife shall be aggregated for the purpose of the allowances from assessable income under Chapter VI. and for the purpose of calculating the sums chargeable at the unit rate and at twice the unit rate, and the total tax payable in respect of the incomes of husband and wife shall not be less than the amount which would have been payable if no notice had been given under this section.

The allowances under Chapter VI. and the amounts chargeable *at* the unit rate and at twice the unit rate shall be apportioned between the husband and the wife by the Commissioner in his discretion, the allowance in respect of earned income being apportioned by reference to the amount of the earned income of each, the other allowances from assessable income in proportion to the assessable income of each, and the amounts chargeable *at* the unit rate and at twice the unit rate in proportion to the taxable income of each: Provided that where an assessment is reduced or increased after such apportionment has been made, the Commissioner shall make a fresh apportionment, and any consequent adjustment shall be made by additional assessment or reduction or repayment of tax, **as** the case may require.

(3) Wherever one spouse is resident and the other non-resident and notice under sub-section (1) is given by the resident spouse, the resident spouse may in such notice elect that the provisions of sub-section (2) be not applied, and in that event, the income from Ceylon of the non-resident spouse shall, notwithstanding the provisions of sub-section (2), be deemed to be the income of the resident spouse and shall be assessed accordingly, and no allowance which may be claimed under section 16 (1) (c) and (d) shall be granted.

(4) Where one spouse is resident and the other non-resident, the resident spouse may be deemed the agent of the non-resident spouse for all the purposes of this Ordinance and shall be liable to pay the whole of the tax chargeable in respect of the profits and income of both whether assessed jointly or severally.

#### B.—TRUSTEES, EXECUTORS, &C.

##### Chargeability of Receiver and Trustee

23 (1) An Assessor may give notice in writing to a *receiver* or trustee requiring him to furnish within the time limited by such notice a return of the income of any person for whom he acts or from any property under his control, and such *receiver* or trustee shall be chargeable with tax at twice the unit rate on the whole of such income :

Provided that where any person or persons not exceeding ten in number are entitled as beneficiaries to any part or parts of such income, such part or parts may be deducted from the amount on which the trustee or receiver is assessable and may be treated for the purposes of this Ordinance as the income of the beneficiaries.

(2) Where the Commissioner directs in accordance with sub-section (1) that the part or parts of any income be treated for the purposes of this Ordinance as the income of a receiver or trustee, such receiver or trustee, shall be entitled to deduct tax from any income that he distributes to the beneficiaries, and the provisions of section 43 shall apply, as far as may be, to all the sums so distributed in the same way as they apply to dividends paid by a company.

Where there are more than ten such beneficiaries, the commissioner may direct that part or parts of the income to which they are entitled shall be treated for the purposes of this Ordinance either

- (a) as the income of the receiver or trustee as the case may be, or
- (b) as the income of the beneficiaries.

(3) The trustee of an incapacitated person shall be chargeable with *tax* in like manner and to the like amount as such person would be chargeable: Provided that nothing in this section shall prevent the direct assessment of an incapacitated person in his own name.

#### 24, 25 (Repealed by No. 25 of 1939)

##### Adjustment of Tax on the Shares of the Beneficiaries when an Estate is Distributed.

26 Notwithstanding the provisions of sub-sections (10) and (11) of section 11, where a beneficiary has received the capital amount of his interest in the estate of a deceased person administered by an executor, notice may be given either by the Commissioner to the beneficiary or by the beneficiary to the Commissioner within three years of the end of the year of assessment in which the capital amount was received, of his intention to claim an adjustment of the tax charged both to the beneficiary and to the executor in respect of the beneficiary's share of the income of the estate, and such adjustment shall be made accordingly by repayment or additional assessment, as the case may require, in respect of the income of the whole period extending from the date of death to the date on which the beneficiary received the capital amount of his interest in full.

The basis of such adjustment shall be the aggregate difference between—

- (a) the tax (apportioned as the Commissioner in his discretion thinks reasonable) paid by the executor in respect of the beneficiary's share of the income of the estate for the said period added to the total amount of the tax paid by the beneficiary; and
- (b) the total amount of the tax which would have been paid by the beneficiary for the said period, if his assessable income for each year of assessment had included his full apportioned share of the income of the estate arising in that year.

### **Executor Chargeable with Tax for Periods prior to Date of Death**

27 The executor of a deceased person shall be chargeable with the tax for all periods prior to the date of such person's death with which the said person would be chargeable if he were alive, and shall be liable to do all such acts, matters, and things as the deceased person if he were alive would be liable to do under this Ordinance: Provided that—

- (i) no proceedings shall be instituted against the executor under the provisions of Chapter XV. of this Ordinance in respect of any act or default of the deceased person;
- (ii) no assessment or additional assessment in respect of a period prior to the date of such person's death shall be made after the expiry of two years from such date of death; and
- (iii) the liability of an executor under this section shall be limited to the sum of—
  - (a) the deceased person's estate in his possession or control at the date when notice is given to him that liability to tax will arise under this section, and
  - (b) any part of the estate which may have passed to a beneficiary.

### **Joint Trustees and Executors**

28 Where two or more persons act in the capacity of trustees of a trust or executors of a deceased person's estate, they may be charged jointly or severally with the tax with which they are chargeable in that capacity, and shall be jointly and severally liable for payment of the same.

## **C.—PARTNERSHIPS**

### **Assessment of Partnership Income**

29 Where a trade, business, profession, vocation, or employment is carried on by two or more persons in partnership the following provisions shall apply:—

(1) An Assessor may give notice in writing to the precedent partner of the partnership requiring him to furnish within the time limited by such notice a return showing the profits or losses of the partnership from such trade, business, profession, vocation, or employment during the period of twelve months immediately preceding the year of assessment or during any other period in respect of which statutory income may be computed under section 11, ascertained in accordance with the provisions of this Ordinance relating to the ascertainment of profits and income of a person, and showing also any interest, annuity, ground rent, or royalty payable by the partnership in respect of such trade, business, profession, vocation, or employment for the said period. The amount of such interest, annuity, ground rent, or royalty (except where it is payable by a person out of Ceylon to another person out of Ceylon) shall be deducted from the profits or added to the losses ascertained as above, and the figure thus arrived at shall be known as the divisible profit or loss for that period. The precedent partner shall further in

such return declare any other income of the partnership for the said period together with the names and addresses of all the partners, and shall apportion among them the whole of the divisible profit or loss and other income in accordance with their shares in the partnership during the period in which the said profit or loss or income arose.

Where no active partner is resident in Ceylon, the return shall be furnished by the agent of the partnership in Ceylon.

(2) In computing the profits or losses of the partnership, nothing shall be deducted for salaries or other remuneration of partners or for interest on partners' capital, but such sums shall be taken into account in apportioning among the partners the divisible profit or loss and other income.

(3) The statutory income of any partner from the partnership shall be computed in accordance with the provisions of section 11 by treating his share of the divisible profit of the partnership as though it were profits of a trade, business, profession, vocation, or employment carried on or exercised by him, and his share of other income as though it accrued to him solely: Provided that where no return has been made as required by sub-section (1) or a return made under that sub-section has not been accepted, the Assessor may estimate the statutory income of any partner from the partnership to the best of his judgment.

(4) The share of any partner of a divisible loss shall be a loss incurred by him within the meaning of section 13. The amount of such divisible loss and the partner's share thereof shall be determined by the Assessor subject to appeal as provided by Chapter XL.

(5) Where a return has been made by the precedent partner in accordance with sub-section (1) and has been accepted by the Assessor, the income of each partner resident in Ceylon derived from the partnership shall be assessed upon him individually.

(6) The income of any non-resident partner or partners from the partnership shall be assessable in the name of the partnership or of any resident partner or of any agent of the partnership in Ceylon, and the tax charged thereon shall be recoverable by all means provided in this Ordinance out of the assets of the partnership, or from any partner, or from any such agent.

(7) Where no return has been made in accordance with sub-section (1) or the return has not been accepted by the Assessor, either as regards the amount of the profits or income or the allocation thereof among the partners, it shall be lawful for an assessment to be made in the name of the partnership on the estimated amount of the profits and income of the partnership arrived at in accordance with the provisions of this Ordinance relating to the ascertainment of the assessable income of a person, and tax thereon may be charged at twice the unit rate and shall be recoverable out of the assets of the partnership, or from any partner, or from any agent of the partnership; such assessment shall be subject to appeal by any person aggrieved thereby in the manner provided by Chapter XI, and the Commissioner or the Board of Review, as the case may be, may upon such appeal determine the profits and income and allocate the same among the partners and compute their statutory incomes from the partnership as provided in sub-section (3) and the tax payable in respect thereof, which may be re-assessed on the individual partners or may be recovered as tax on the assessment appealed against without any new assessment.

(8) Where under this section income has been assessed in the name of a partnership, and a change occurs in such partnership by reason of retirement or death, or the dissolution of the partnership as to one or more of the partners, or the admission of a new partner, in such circumstances that one or more of the persons who were joint owners of the assets of such partnership continues to be owner or joint owner of such assets, the person or partnership becoming owner of such assets in consequence of such change shall be charged with the said tax or any part of it which remains unpaid, and the provisions of Chapter XIII. shall apply to such person or partnership accordingly,

### D.—AGRICULTURE

#### Ascertainment of Profits from Certain Agricultural Undertakings

30 (1) In this section—

- (a) "permanent cultivation" means the cultivation of land for the purpose of producing coconuts, rubber, tea, cocoa, and other products from palms, trees, or bushes of a more or less permanent character, all of which are hereinafter referred to as trees;
- (b) "estate" means any area of land used mainly for the purpose of permanent cultivation;
- (c) "immature area" means an estate or part of an estate, first planted in a particular year, in which the trees planted in that year are not fully mature, or not in full bearing.

(2) For the purpose of ascertaining the profits from an estate, the provisions of this section shall apply in addition to, and shall be read with, Chapter III.

(3) The income and expenditure in connection with any immature area shall be separately considered, and it shall be lawful for the Assessor to require production of such particulars as may be necessary for that purpose.

(4) Where for any accounting period the expenditure other than capital expenditure incurred by any person on any immature area exceeds the receipts therefrom, and such excess is mainly due to the fact that the trees in that area (or a substantial proportion thereof) are not yet in bearing, the amount of such excess or the total amount of such excesses where expenditure has been so incurred by any such person on more immature areas than one, not exceeding in any case fifteen per cent. of the profits of that person from his estates for the same period, shall be allowed as a deduction from such profits. The balance of such excess shall be deemed to be capital expenditure.

#### Reduction of Tax on Profits from the Cultivation of Products Subject to Export Duty, other than Tea.

31 \* (1) Where during any year of assessment an export duty is levied under the law of Ceylon on an agricultural product other than tea at a rate not less than four-fifths of the rate in force in relation to such product on the first day of January, 1931, a reduction shall be granted of the tax charged on the income for that year of assessment of any person who cultivates such product equal to three per cent. of his income from such cultivation: Provided that where such duty is in force for a part only of a year of assessment, the relief granted by this section shall be proportionately reduced.

(2<sup>1</sup>) For the purposes of this section, the income for a year of assessment arising from the cultivation of an agricultural product shall be the statutory income for that year computed on the profits arising to the cultivator from the sale by him of that product whether in its raw or manufactured state, less any deduction allowed in relation to such statutory income under the provisions of section 13 either by reason of a loss incurred in such cultivation or in another business, or by reason of any interest, annuity, ground rent, or royalty which is charged upon or paid or payable out of that income.

(3) The relief granted by this section shall not operate to reduce the tax payable by any person for any year of assessment to a sum less than one per cent. of his assessable income for that year.

#### Rebate of Export Duty on Tea In Certain Cases

32\* Where during any year of assessment an export duty on tea is levied under the law of Ceylon at a rate not less than four-fifths of the rate in force on the first day of January, 1931, a sum shall be granted on account of such duty to any person, on application to the Commissioner, equal to eighty-five cents for each one hundred

pounds weight of tea in its manufactured state which was manufactured by him in Ceylon during the year preceding the year of assessment, or such other period as may be adopted in lieu thereof under the provisions of section 11 (2): Provided that where such duty is levied for a part only of a year of assessment, the relief granted by this section shall be proportionately reduced.

\*The application of the provisions of sections 31 and 32 of the Ordinance have been limited and modified by the Income Tax (Special Provisions) Ordinance, No. 31 of 1941, which came into operation on the tenth day of July, 1941, and enacted that:

(1) Notwithstanding anything in section 31 of the principal Ordinance, and notwithstanding that during any year of assessment or part of a year of assessment, falling within the prescribed period, export duty is levied under the law of Ceylon on rubber or rubber latex at a rate not less than four-fifths of the rate in force in relation to such agricultural product on the first day of January, Nineteen Hundred and thirty-one, no reduction shall be granted under that section of the tax charged on the income of any person from the cultivation of rubber for that year of assessment or that part of a year of assessment.

(2) Notwithstanding anything in section 32 of the principal Ordinance, and notwithstanding that, during any year of assessment or part of a year of assessment falling within the prescribed period, export duty on tea is levied under the law of Ceylon at a rate not less than four-fifths of the rate in force on the first day of January, Nineteen Hundred and thirty-one, no rebate under that section on account of such export duty shall be granted to any person in respect of any tea manufactured by him in Ceylon during the year preceding that year of assessment or such other period as may be adopted in lieu thereof under the provisions of section 11 (2) of the principal Ordinance.

In this section, "prescribed period" means the period of three years commencing on the tenth day of July, 1941.

#### E.—RESIDENCE

##### What Constitutes Residence

33 (1) Where a company or body of persons has its registered or principal office in Ceylon, or where the control and management of its business are exercised in Ceylon, such company or body of persons shall be deemed to be resident in Ceylon for the purposes of this Ordinance:

Provided that where a company registered in Ceylon proves that it is controlled and managed in the United Kingdom, and that it is treated for the purpose of United Kingdom income tax as resident in that country, it shall be treated as non-resident. •

(2) An individual who arrives in Ceylon and who is in Ceylon for a period or periods amounting in the aggregate to more than six months during the year commencing from the date of his arrival shall, if he is in Ceylon at the end of that year, be deemed resident throughout that year; but if he is not in Ceylon at the end of the year, he shall be deemed resident from the date of his arrival to the date of his last departure during that year, and, subject to the provisions of the following sub-sections, non-resident from the date of such last departure to the end of that year.

(3) An individual who has been deemed resident throughout a period of twenty-four consecutive months or who would have been deemed to be so resident if this Ordinance had always been in force, shall be deemed to be resident until such time as he is continuously absent from Ceylon for an unbroken period of twelve months. When such person is so absent, he shall be deemed to be non-resident as from the date on which such absence commenced.

(4) Where an individual is deemed resident for any period in accordance with the provisions of any of the foregoing sub-sections, and at the end of such period is absent from Ceylon for less than three months, such period of absence shall for all *the* purposes of this section be treated as if it had been spent by him in Ceylon.

(5) Where an individual dies during any year of assessment, and, in respect of the period from the commencement of such year to the date of his death, the Commissioner is satisfied

- (a) that, although he is deemed to be resident under the foregoing sub-sections, he would but for his death, have been deemed to be non-resident, or
- (b) that, although he is not deemed to be resident under the foregoing sub-sections, he would, but for his death, have been deemed to be resident, and
- (c) that there is chargeable for the said period a greater amount of tax than would have been so chargeable if he had lived,

the Commissioner may direct that such deceased individual shall be deemed to have been resident or non-resident, as the case may be, for the purpose of granting such relief as the circumstances of the case may require.

#### **Chargeability of Certain Profits of Non-resident Persons**

34 (1) Where a person in Ceylon, acting on behalf of a non-resident person, effects or is instrumental in effecting any insurance or sells or disposes of or is instrumental in selling or disposing of any property, whether such property is in Ceylon or is to be brought into Ceylon and whether the insurance, sale, or disposal is effected by such person in Ceylon or by or on behalf of the non-resident person outside Ceylon and whether the moneys arising therefrom are paid to or received by the non-resident person directly or otherwise, the profits arising from any such insurance, sale, or disposal shall be deemed to be derived by the non-resident person from business transacted by him in Ceylon, and the person in Ceylon who acts on his behalf shall be deemed to be his agent for all the purposes of this Ordinance.

(2) The profits of a non-resident person from employment by a resident person shall lie chargeable with tax in so far as such profits arise from services or past services rendered in Ceylon.

#### **Persons Assessable on behalf of a Non-resident Person**

35 A non-resident person shall be assessable either directly or in the name of his agent in respect of all his profits and income arising in or derived from Ceylon, whether such agent has the receipt of the income or not, and the tax so assessed whether directly or in the name of the agent shall be recoverable by all means provided in this Ordinance out of the assets of the non-resident person or from the agent. Where there are more agents than one, they may be assessed jointly or severally in respect of the income of the non-resident person and shall be jointly and severally liable for tax thereon.

#### **Liability of Certain Non-resident Persons**

143 (1) For the purposes of this section—

- (a) a person is closely connected with another person where the Commissioner in his discretion considers that such persons are substantially identical or that the ultimate controlling interest of each is owned or deemed under this section to be owned by the same person or persons;
- (b) the controlling interest of a company shall be deemed to be owned by the beneficial owners of its shares, whether held directly or through nominees, and shares in one company held by or on behalf of another company shall be deemed to be held by *the* shareholders of the last-mentioned company.

(2) *Where* a non-resident person carries on business with a resident person with whom he is closely connected and the course of such business is so arranged that it produces to the resident person either no profits or less than the ordinary profits which might be expected to arise, the business done by the non-resident person in pursuance of his connection with the resident person shall be deemed to be carried on in Ceylon, and such non-resident person shall be assessable and chargeable with tax in respect of his profits from such business in the name of the resident person as if the resident person were his agent, and all the provisions of this Ordinance shall apply accordingly.

(3) Where tax is chargeable in respect of the profits arising from the sale of goods or produce manufactured or produced outside Ceylon by a non-resident person or by a person or persons with whom he is closely connected, the profits of such non-resident person for the purposes of this Ordinance from the sale of such goods or produce shall be deemed to be not less than the profits which might reasonably be expected to have been made by a merchant, or, where the goods or produce are retailed by or on behalf of the non-resident person, by a retailer of the goods or produce sold, who had bought the same direct from a manufacturer or producer with whom he was not connected.

Where import duty levied on an ad valorem basis under Ordinance No. 17 of 1869 has been paid in Ceylon on such goods or produce, the sum to be deducted as the cost of such goods or produce on arrival in Ceylon shall not, for the purpose of computing the profits arising in Ceylon, be greater than the value on which such import duty has been so paid.

#### **Profits of Certain Businesses to be Computed on a Percentage of the Turnover**

37 Where the Commissioner in his discretion considers that the true amount of the profits of a non-resident person arising in or derived from Ceylon in respect of a trade or business cannot be readily ascertained, such profits may be computed on a fair percentage of the turnover of that trade or business in Ceylon: Provided that the amount of such percentage shall be subject to appeal in accordance with the provisions of Chapter XI.

#### **Profits of Non-resident Persons from Sale of Exported Produce**

38 Where a non-resident person carries on in Ceylon an agricultural, manufacturing, or other productive undertaking, and sells any product of such undertaking outside Ceylon or for delivery outside Ceylon, whether the contract is made within or without Ceylon, the full profit arising from the sale in a wholesale market shall be deemed to be income arising in or derived from Ceylon: Provided that, if it is shown that the profit has been increased through treatment of the product outside Ceylon other than handling, blending, sorting, packing, and disposal, such increase of profit shall not be deemed to be income arising in or derived from Ceylon within the meaning of section 5.

Where any such product is not sold in a wholesale market, or is not sold at all, the said person shall be deemed to derive profits from Ceylon within the meaning of section 5 and such profits shall be deemed to be not less than the profits which might have been obtained if such person had sold such product wholesale to the best advantage.

#### —SHIPPERS

#### **Profits of Non-resident Shipowners**

39 (1) Where a non-resident person carries on the business of shipowner or charterer and any ship owned or chartered by him calls at a port in Ceylon, his full profits arising from the carriage of passengers, mails, live-stock, or goods shipped in Ceylon shall be deemed to arise in Ceylon: Provided that this section shall not apply to goods which are brought to Ceylon solely for transshipment.

(2) Where for any accounting period such person produces the certificate mentioned in sub-section (3), the profits arising in Ceylon from his shipping business for such period, before deducting any allowance for depreciation shall be a sum bearing the same ratio to the sums receivable in respect of the carriage of passengers, mails, live-stock, and goods shipped in Ceylon as the ratio for the said period shown by that certificate of the total profits to the total sums receivable by him in respect of the carriage of passengers, mails, live stock, and goods: Provided that where the said total profits have been computed on a basis which differs materially from that prescribed in this Ordinance, the ratio of profits shall be adjusted so as to correspond as nearly as may be to the ratio which would have been arrived at if the profits had been computed in accordance with the provisions of this Ordinance.

(3) The certificate shall be one issued by or on behalf of any income tax authority which assesses the full profits of the non-resident person from his shipping business, and shall certify for any accounting period as regards such business—

- (a) the ratio of the profits, or where there are no profits, of the loss as computed for the purposes of income tax by that authority, without making any allowance by way of depreciation, to the total sums receivable in respect of carriage of passengers, mails, live-stock, or goods; and
- (b) the ratio of the allowance for depreciation as computed by that authority to the said total sums receivable in respect of the carriage of passengers, mails, live stock, and goods.

(4) Where at the time of assessment the provisions of sub-section (2) cannot for any reason be satisfactorily applied, the profits arising in Ceylon may be computed on a fair percentage of the full sum receivable on account of the carriage of passengers, mails, live-stock, and goods shipped in Ceylon: Provided that where any person has been assessed for any year of assessment by reference to such percentage, he shall be entitled to claim at any time within three years of the end of such year of assessment that his liability to tax for that year be recomputed on the basis provided by sub-section (2).

(5) Where the Commissioner decides that the call of a ship belonging to a particular non-resident shipowner or charterer at a port in Ceylon is casual and that further calls by that ship or others in the same ownership are improbable, the provisions of this section shall not apply to the profits of such ship and no tax shall be chargeable thereon.

### **Master of Ship to be an Agent**

40) The master of any ship owned or chartered by a non-resident person who is chargeable under the provisions of section 39 shall (though not to the exclusion of any other agent) be deemed the agent of such non-resident person for all the purposes of this Ordinance.

### **Refusal of Clearance where Tax Is In Arrear**

41 (1) In addition to any other powers of collection and recovery provided in this Ordinance, the Commissioner may, where the tax charged on the income of any person who carries on the business of shipowner or charterer has been in default for more than three months (whether such person is assessed directly or in the name of some other person), issue to the Principal Collector of Customs or other authority by whom clearance may be granted a certificate containing the name or names of the said person and particulars of the tax in default. On receipt of such certificate, the Principal Collector of Customs or other authority shall be empowered and is hereby required to refuse clearance from any port in Ceylon to any ship owned wholly or partly or chartered by such person until the said tax has been paid.

(2) No civil or criminal proceedings shall be instituted or maintained against the Principal Collector of Customs or other authority in respect of a refusal of clearance under this section, nor shall the fact that a ship is detained under this section affect the liability of the owner, charterer, or agent to pay harbour dues and charges for the period of detention.

**Profits of non-resident owners of aircraft**

- (a) in any case where the accounting period falls wholly within a year of control, the standard production of the estate for the accounting period shall be deemed to be an amount which bears to the standard production for that year of control the same proportion as the number of days in the accounting period bears to the total number of days in that year;
- (b) in any case where the accounting period falls within two years of control (hereinafter referred to, respectively, as "the first year" and "the second year"), the standard production of the estate for the accounting period shall be specially computed for the purpose of this section and shall be deemed to be the total of :—
  - (i) an amount which bears to the standard production for the first year of control the same proportion as the number of days in the accounting period which falls within that year bears to the total number of days in that year; and
  - (ii) an amount which bears to the standard production for the second year of control the same proportion as the number of days in the accounting period which fall within the second year bears to the total number of days in that year
- (c) where the number of pounds of rubber produced on the estate during the accounting period exceeds 75 per cent. of the standard production for that accounting period, but does not exceed such standard production, a deduction shall be made of an amount equivalent to one-half of the profits arising in respect of such excess production;

(2) All deductions authorised under this section shall be separately determined in relation to each estate registered under the Rubber Control Ordinance, No. 63 of 1938.

(3) Notwithstanding anything in section 9, no deduction shall be made under this section in determining the profits of any pre-war trade year.

(4) In this section—

- (a) means the amount of the standard production of the estate for the year as determined under the aforesaid Ordinance; or
- (b) in any case where any area or areas on the estate have been replanted, and the quantity of rubber (hereinafter referred to as "the first quantity") produced from such area or areas in that year is less than the quantity of rubber (hereinafter named as "the second quantity") which, in the opinion of the Commissioner, fairly represents the amount included in respect of such area or areas in the standard production of that estate for that year as determined under the Ordinance, means the amount of the standard production so determined, reduced by the difference between the second quantity and the first quantity.

(5) The Governor may, by Order published in the Gazette, make provision prescribing the circumstances in which, and the terms and conditions subject to which, relief may be granted in respect of the intensive production of rubber in any place outside Ceylon in cases where excess profits duty is payable under this Ordinance on the profits arising from the production of such rubber.

5. Where for the purposes of this Ordinance it is necessary to determine the profit or loss for any period for which accounts have not been made up, it shall be lawful to divide and apportion to specific periods the profits or loss for any period for which accounts have been made up or to aggregate any such profits or losses or any apportioned parts thereof; and any such apportionment shall, unless the Commissioner otherwise directs, be made in proportion to the number of days in the respective periods.

### DETERMINATION OF PRE-WAR STANDARD

6. (1) For the purposes of this Ordinance, the pre-war standard of profits of any business shall, subject to the provisions of this Ordinance, be taken to be the amount of the profits arising from that business on the average of any two of the three last pre-war trade years to be selected by the taxpayer.

Where owing to the recent commencement of a business there have not been three pre-war trade years, but there have been two pre-war trade years, the pre-war standard of profits shall, subject to the provisions of this Ordinance, be taken to be the amount of the profits arising from the business on the average of those two years or, at the option of the taxpayer, the profits arising from the business during the latter of those two years; and where there have not been two pre-war trade years, but there has been one pre-war trade year, the pre-war standard of profits shall, subject to the provisions of this Ordinance, be taken to be the profits arising from the business during that year.

The pre-war standard of profits determined under the preceding provisions of this sub-section is hereafter in this Ordinance referred to as the "profits standard".

(2) Where it is shown to the satisfaction of the Commissioner that the amount of the profits standard is less than the percentage standard as hereinafter defined, the pre-war standard of profits shall be taken to be the percentage standard.

(3) Where there has not been one pre-war trade year, the pre-war standard of profits shall be taken to be the percentage standard:

Provided that where the business is an agency or business of a nature involving capital of a comparatively small amount, the pre-war standard of profits may, if the taxpayer so elects, be computed by reference to the profits arising from any trade, business, office, employment or profession of any sort, whether liable to excess profits duty or not, carried on by him before his new business commenced as if it was the same business; but only to the extent to which the income from the former trade, business, office, employment or profession has been diminished.

(4) The percentage standard shall, for the purposes of this Ordinance, be taken to be an amount equal to ten per centm of the capital of the business existing at the end of the last pre-war trade year, or where there has not been one pre-war trade year, at the date of the commencement of the business. Such capital shall be determined in the manner hereinafter provided.

(5) Notwithstanding anything in the preceding provisions of this section—

- (a) where the pre-war standard of profits of any business as determined under such preceding provisions is less than four thousand rupees, the pre-war standard of profits of that business shall, save as otherwise provided in paragraph (b) or paragraph (c), be taken to be four thousand rupees;
- (b) where, in the case of the business of a partnership or of a Hindu undivided family comprising two working partners or working members, as the case may be, the pre-war standard of profits as determined under such preceding provisions is less than seven thousand rupees, the pre-war standard of profits of that business shall be taken to be seven thousand rupees;
- (c) where, in the case of the business of a partnership or of a Hindu undivided family comprising three or more working partners or working members, as the case may be, the pre-war standard of profits as determined under such preceding provisions is less than ten thousand rupees, the pre-war standard of profits of that business shall be taken to be ten thousand rupees.

Where in any case referred to in paragraph (b) or paragraph (c), there is, in any accounting period, a change in the number of working partners or working members of a partnership or of a Hindu undivided family, as the case may be, the pre-war standard of profits of the business of such partnership or family shall, for the purposes of the application of the provisions of this Ordinance in respect of that accounting period, be determined by reference to the number of working partners or working members at the commencement of that accounting period.

(6) For the purposes of this section, a person shall not be deemed to be a working partner in a partnership or a working member of a Hindu undivided family unless he—

- (a) has attained majority; and
- (b) (i.) devotes his full time to the business of such partnership or family, or
- (ii.) if he is engaged in any other business or in any profession or employment, devotes more than half of his working time to the conduct of the business of such partnership or family :

Provided that no person shall, for the purposes of this section, be deemed to be a working partner in a partnership unless he has a share in the capital of that partnership.

**ADJUSTMENT WHERE ACCOUNTING PERIOD  
IS OTHER THAN A YEAR.**

7. Where the accounting period for which the excess profits duty is to be assessed is other than a year, the amount of the pre-war standard of profits shall be a proportionate amount calculated by reference to the number of days in that accounting period.

**PROFITS STANDARD ON CHANGE OF OWNERSHIP**

8. (1) Where since the commencement of the three last pre-war trade years a business has changed ownership, the provisions of this Ordinance shall apply as if a new business had been commenced on the change of ownership, except in a case where the taxpayer makes an application that the provisions of this Ordinance should apply as if the business had not changed ownership; but in that case such modifications (if any) shall be made in the application of this Ordinance as may be necessary to make the basis on which the profits standard is computed the same as that on which the profits of the accounting period are computed:

Provided that where on a change of ownership during any accounting period a new business is deemed to have commenced, the pre-war standard of profits of that new business for the purpose of this Ordinance shall be the same as that which applied to the business before the change of ownership, unless the pre-war standard of profits was, prior to such change of ownership, determined in accordance with the provisions of section 6 (5); and in computing the capital employed after the change, no regard shall be had to the price paid or other consideration for the transfer of the business or any of the assets thereof on the occasion of the change.

- (c) the amount by which the sums paid during that accounting period, by way of distribution of profits, exceeds the sums paid, by way of such distribution, in respect of the last pre-war trade year or during the first accounting period, as the case may be.

Excess profits tax is payable in British India under the Excess Profits Tax Act, 1940.

### SCHEDULE Rules

(1) These rules may be cited as the Excess Profits Double Taxation (Ceylon and India) Rules.

(2) In these rules the expression : —

(1) "excess profits tax",

(a) so far as Ceylon is concerned means any excess profits duty payable in accordance with the law in force in Ceylon;

(b) so far as British India is concerned means any excess profits tax payable in accordance with the provisions of the Excess Profits Tax Act, 1940.

(ii) "chargeable accounting period" : —

(a) with reference to Ceylon, means any accounting period, specified in section 2 of the Excess Profits Duty Ordinance, No. 38 of 1941, in respect of which the excess profits tax is chargeable, and

(3) Any reference in these rules to the lower of two amounts shall, where the amounts are equal, be construed as a reference to either of the amounts.

(4) These rules shall have effect in respect of Ceylon excess profits tax charged for any chargeable accounting period in respect of which under the law in force in British India relief is to be given in respect to the payment of Ceylon excess profits tax.

(5) If the person carrying on a business in any chargeable accounting period proves to the satisfaction of the Assessor that he has paid in respect of any profits of the business in that period, Ceylon excess profits tax and that he has also paid, in respect of those profits, Indian excess profits tax:—

- (i) There shall be computed the amount of excess profits tax which would be payable in Ceylon and British India respectively, if excess profits tax in the two countries were disregarded except in computing capital;

The older Planting Districts are given as named and defined by a Committee of the Planters' Association in 1856. But the great extension of planting within the last eighty-eight years, and especially the Tea and Rubber industries, called for a rearrangement of certain Districts, so as to settle the boundaries and names of some which were more or less undefined. The present arrangement has the advantage of being familiar to the planters and others chiefly concerned.

Under each District is given a list of the estates within its limits, with their usual designations, the names of the proprietors or lessees, the agents, the names of the resident managers and assistant superintendents, the total acreage, the planted acreage of each estate, the respective acreage in each product with the post-towns, distances from Telegraph and *Railway* Station] the Telephone numbers of the estates in the districts where Telephones exist, and hospitals and dispensaries ; also the approximate elevation of each district above sea level as well as the elevation of individual estates where ascertainable. The Tamil or Sinhalese names of plantations are embodied in a separate index, following the English index.

The mileage of each estate from nearest Telegraph as well as Railway stations, and each estate's number in the Cooly Register for Tin Tickets are given.

In all cases where we have been apprised of the existence of any appreciable acreage of subsidiary products, cinchona, cardamoms, cotton, tobacco or other cultivation on an estate, we have shown the particulars, as far as we were able, in separate columns or with notes.

Wherever " Lessees " are meant under the heading of " Proprietors or Lessees ", it is so specified after the names. Where the Telegraph Station differs from the Post Town, the former is indicated, as far as possible, and the figures indicate distances. Distances from the Railway Station are also given, as far as possible.

The capital letter and number after the estate's name indicate that estate's number in the Cooly Register for Tin Tickets : while the Telephone Numbers are also given in the same way in the districts where telephone communication exists. The elevations of estates above sea-level are also shown wherever possible.

For total areas under different products, see Table in Agriculture, Trade & Finance Section.

N.B.—In regard to the figures of Acreage, the area in Grass, New Products, &c., is included in the total given in " cultivated " column, but " timber and grass " are as often excluded as included in " cultivated " total. Land felled for planting or clearings just planted are generally included in the "cultivated" total.—The figures at end of Post-stations represent distances from nearest Telegraph station : where only one figure is given, it represents the distance from both the Post and Telegraph Office, but where two figures are given the first is the distance from the Post Office and the second is that from the Telegraph Office.

**1.IIF" For old or Duplicate Names, see the Index at end.**

# General Directory of Addresses

**THE GENERAL DIRECTORY has been corrected up to the end of April, 1944. In some cases we have anticipated an approaching change of address, but allowance must be made for changes that have taken place while the pages were passing through the Press.**

All communications regarding errors, omissions, additions; etc should be addressed to the Compiler, "Ferguson's Ceylon Directory", Ceylon Observer Office, P.O. Box No. 116, Colombo.

N.B.—In consulting the following list of names there are a few points which must be kept specially in view, in respect of certain names which for one reason or another, have come to acquire different forms if spelling. For instance, we have "Silva" and "SyIvo." "Zilva" and "Zylva" with or without the prefix "de". It is impossible, therefore, to lay down any clear rule; accordingly although the vast majority are spelled as "De Silva", yet there are some "Si!vas" and one or two other forms. If, the name sought for is not found under "De," "S" and "Z" must be tried. The same applies to several other Ceylonese and other Asiatic names. One person will write "Peiris," or "Pieris," another "Penis," and "Pereira," another "Perera." So with "Alwis" and "Alvis," the former used often with the prefix "de," while "Goonewardene," "Gooneratne," "Goonesekera" and "Mooonesinho," are written as "Gunawardano," "Gunaratna," "Gunasekara," and "Munasinha" respectively, according to spellings adopted, or even, perhaps, according to "the taste and fancy of the speller." The letters C, G and K are often interchangeable. Keeping these hints in view, however, there ought not to be much difficulty in finding the names and addresses of Ceylonese who have names which are spelt variously.
