# PREFACE

the fifth year of the war has found Ceylon grappling with an acutely difficult food problem; increasing her output of rubber and other war material and facing the prospect of becoming a major base for large-scale amphibious offensive operations against the Japanese. A momentous event since Ferguson's Directory last appeared was the establishment in this Island of the headquarters of the Supreme Commander of the Allied Forces in South-East Asia.

In the political sphere, interest was centred on a scheme of reforms based on the offer by His Majesty's Government of responsible government in internal affairs, and submitted by the Board of Ministers to the Secretary of State for the Colonies.

The purging of the State Council of elements of corruption as the result of a Bribery Commission's report and many by-elections eliminated some of the "staleness" of a legislature that has exceeded its normal span of life by nearly four years.

The food situation, as far as rice is concerned, has never been so serious. The few remaining sources of supplies from abroad may not be able to help Ceylon, and the quantity of paddy purchased internally and put into the rationing scheme has had to be increased by means of stricter regulations. The shortage of milk and milk foods and of meat complicated matters further.

The price of rubber has been increased to over a rupee a pound, and production has received the desired stimulus. The dissolution of the International Rubber Regulation Committee at the end of April revived interest in the future of the plantation industry.

The country's revenue continued to rise and surpluses to accumulate. But huge sums of money were voted for financing food production schemes, and the prospect of post-war expenditure on a scale beyond the country's normal means had to be faced in the keen discussion aroused by a scheme for free education for all, from the kindergarten to the University.

The wave of wartime prosperity kept on rising during the period under review, and the general feeling was that something should be done to check inflation. War Loans and a National Loan were well supported, and a War Savings Week produced phenomenal results; but it was feared that much money that could be regularly saved every month continued to be spent in the black market and that higher wages continued to chase rising prices in a vicious circle.

The Island received no attention from the enemy, beyond a few visits of reconnaissance planes and the dropping of a few bombs one night on the East coast.

Vital statistics for 1943 did not show the same satisfactory results as in the previous year; both the general death rate and the infantile mortality rate rose again after an encouraging decline in the three preceding years.

Once more, in spite of the hardships and restrictions of another year of war, Ferguson's Directory makes its appearance as usual—and this is the eighty-sixth year of a publication that strives to give as comprehensive, up-to-date and reliable a collection of facts and figures as prevailing conditions permit.

May, 1944.

# CEYLON

*The Land of Palms (specially Coconut); Tea, India-Rubber, Cacao (Chocolate Plant); Spices (Cinnamon, Cardamoms, Camphor, Pepper, &c.); Coffee, Cinchona; Land of Pearls, Rubies, Sapphires, Alexanctrite, Cat's-Eyes, Moonstones; Plumbago, &c.; of Ancient Ruined Cities, of Tropical Vegetation and Scenery (Highland and Lowland; the Finest in the World; of a great variety of Fauna, from the Elephant to the Cobra-de-capello.*

Ceylon is a pear-shaped island lying at the southern extremity of India, between 5°55' and 9°55' of North Latitude and 79°42' and 81°53' East Longitude. It is separated from India by the narrow Palk's Strait, which is crossed by Adam's Bridge, a row of islands and sandbanks, with very shallow water between.

The island extends 270 miles north and is 140 miles broad, its total area being 25,332 square miles.

## PHYSICAL FEATURES

The mountains of Ceylon, which originally formed part of the great mass of Peninsular India consists of a central mass of crystalline Rock of Pre-Cambrian Age, which culminate in the Pidurutalagala (8,292 ft.) overlooking Nuwara Eliya.

The central mass of mountains is surrounded by broad coastal plains, which are broadest towards the northern extremity of the island. The rivers radiate round the central mountain core and are short and swift and flow into the sea.

## CLIMATE

Ceylon has a variety of climate, largely dependent on the monsoons and the elevation above sea-level. There are no well-marked seasons. The average mean temperature ranges from 79° to 82\* in the low-country and from 58° to 75° in the hilly country. The rainfall is less towards the North-west and South-east and average under 50 inches a year; while in the wet zones, the average is 200 inches or more. Full temperature and rainfall figures are given on pages 14, 15 and 16.

## FLORA AND FAUNA

Ceylon has a wide variety of vegetation. Rice fields are found in the wet low-country, up to an elevation of about 2000 feet above sea level. The coconut palm is characteristic of the coastal belt of the Southern, Western and North-western provinces, while plantations of Tea, Rubber and Cacao are confined to the mid and up-country. The total area cultivated is about 3 million acres. Full particulars will be found in the Agriculture and Estate Sections.

Large tracts of forest chiefly supply timber for building and furniture trades.

The elephant is mostly associated with Ceylon. Leopards, bear deer, monkeys and buffaloes are some of the commoner animals.

## POPULATION

The last decennial census was taken on February 26, 1931, and showed a total population of 5,312,548 which was 1.9 per cent. more than in 1921. The estimated population of Ceylon on December 31, 1947 was 6,197,000. Full figures are found on page 18.

## Eclipses and Planets in 1944

*Eclipses.*—There will be two eclipses in 1944, both of the Sun, a total eclipse on January 25, invisible in Ceylon and an annular eclipse on July 20 visible as a partial eclipse in Ceylon. In this case the eclipse will commence at 9.38 at Colombo; the greatest obscuration will occur at 11.11, when the magnitude of the eclipse will be 0.61; and the last contact will be at 13.13, giving a duration of 3 hours 35 minutes. If the Sun is regarded as a clock face with the figure XII at the top the eclipse will start a point near the figure XI, and end at a point between the figures III and IV.

*Planets.*—Venus will be a morning star in the first half of the year and an evening star in the second half. Mars will be visible practically throughout the night at the beginning of the year. Setting earlier each month it will be gone for a short time only in the evening in the early part of November, after which it will be visible in the morning sky. At the beginning of the year Jupiter will rise after 10 p.m., and in February will be seen practically throughout the night. By the end of August it will be seen for a short period after dusk and by the end of December it will rise at midnight. Saturn will be visible practically throughout the night at the beginning of the year. Setting earlier each month it will be seen only for a short time in June in the western sky, and practically throughout the night again by the end of the year.

*Magnetism.*—The estimated mean value of the compass declination (or variation) at Colomb in 1941 may be taken as approximately 3'20" V, i.e. the compass zero is west of true north by this amount.

### NOTE TO THE ASTRONOMICAL EPHEMERIS

All times given in this Ephemeris are in Ceylon Advanced Clock Time which is 6h. 30m. in advance of Greenwich Mean Time. The Colombo true local time is 5h. in advance of G.M.T.

The times of sunrise and sunset are those of the appearance and disappearance of the upper limb of the Sun on the horizon at Colombo, assuming the observer to be at sea-level. For every degree eastward from Colombo, the Sun will rise and set 4 minutes earlier. Observers too, 1,000, 2,000, 4,000, 6,000 ft. above sea-level would see the Sun rise 1, 3, 4, 5, 11, 17, 23, 29, 35, 41, 47, 53 minutes earlier, respectively, and set the same amount later, than the corresponding times at sea-level. For places north and south of the latitude of Colombo there will be another correction to the times of sunrise and sunset, which varies with the time of year, but is never more than 5 minutes anywhere in Ceylon, and is usually much less.

The Sun will be directly overhead at Colombo on April 14 and September 5. At Colombo the longest day, June 22, is 48 minutes longer than the shortest, December 22. At Jaffna the longest day is 68 minutes and at Galle reduced to 42 minutes.

**NATIONAL AND RELIGIOUS FESTIVALS IN CEYLON**

1. DuRumen PERM:EZRA, celebrated at the Kelaniya Temple in January in commemoration of the Buddha's first visit to Lanka.
  2. SINHALESE AND TAMIL NEW YEAR, ("awrudn-mangalya"), April 13 or 14.
  3. YESAI FESTIVAL, celebrated on the Full Moon day of the month of Vesak (April-May), in honour of the triple events of the birth, the enlightenment and the pari-nibbana (passing away) of the Buddha.
  4. FOSON FESTIVAL, celebrated on the Full Moon day of the month of Posen (June), in commemoration of the visit of the Arahat Mahinda and the introduction of Buddhism to Ceylon.
  5. ESA LA FERAHEHA, held in Kandy and other towns in August. Formerly celebrated in honour of certain Indian deities, it was incorporated with Buddhist worship in the year 1775 A.C.
- KARTIHA MARCIA LYA, the festival of Lamps. This is a Kandyan festival.

Explanation:—Look for the year in the first part of the table, and opposite it will be found the Dominical letter. When there are two letters together the first is for January and february, the second for the rest of the year. In a line with the month, in the second part of the table, find the dominical letter of the year and down the same column with the letter find the day of the Reek, and the figures on the left give the day of the month. Thus for the Sundays in September 1980: Opposite 1980 in the third column are FE and r "thin iDierd. 1. tiers." In the same column, September fled E and descend the column to "1.tui."—On the left are 7, 14, 21 and 28, the required dates.

# Temperature" of Ceylon

AVERAGE MONTHLY MEAN TEMPERATURE EP TO 1943, Immo:ram.

The method of exposure of thermometers in Ceylon underwent a change when thermometers were placed in screens instead of sheds, but the old shed averages were utilized in the preparation of temperature tables by the application of a shed-to-screen correction. As screen averages are now available at all stations for over 10 years, and temperature variations in Ceylon are comparatively small, the present averages are taken entirely from screen readings. (Temperatures are. in Degrees Fahrenheit).

## The Currency of Ceylon

Ordinance No. 21 of 1941 was proclaimed with effect from 1st September, 1941, and replaced the previous Currency Ordinance No. 32 of 1884.

The new Ordinance provides for a Ceylon Rupee as the unit of Currency, without a coin of corresponding value, but dependent for its international value on the obligation placed on the Currency Board administering the Ordinance to exchange Ceylon Currency for Indian Currency and *vice versa*. This exchange is effected through the Reserve Bank of India, Bombay, and is subject to a commission of per cent. for sums in excess of Rs. 10,000 but below Rs. 500,000. Exchange in quantities of Rs. 500,000 and above is effected at par. The Indian Rupee has been demonetized as from 31st March, 1942. and Indian half rupees and quarter rupees, which were legal tender under the Coinage Orders in force prior to 1st September, 1941, also ceased to be legal tender from the same date.

Currency notes are issued in the denominations of Re. 1, Rs. 2, 5, 10, Rs. 50, 100, 500 and 1,000 and subsidiary coins in the decimal subdivisions of the rupee i.e.:-

50 cent—nickel brass.

25 cent—nickel brass.

5 cent—nickel bronze and since 1942 nickel brass.

1 cent and cent—copper.

Subsidiary notes for 50 cents, 25 cents and 10 cents have also been issued in place of the silver coins of corresponding value which had been demonetised. Subsidiary notes of the denomination of 50 cents, 25 cents and 10 cents and subsidiary coins of the denominations of 50 cents and 25 cents are legal tender for an amount not exceeding Rs. 5, while 5 cent, 1 cent and cent coins are legal tender for an amount not exceeding Re. 1/..

The note circulation stood at Rs. 204,413,920 on 31st December, 1943 and the estimated liability of the Currency Board in respect of the circulation of subsidiary currency notes and coins at Rs. 10,246,693 on the same day.

### Historical

The decimal system of coinage came into operation on January 1, 1872 from which date accounts of the Island were kept in rupees and cents. Since 1825 they had been kept in pounds, shillings and pence and prior to that in rix-dollars, fanams and pice.

## The Judicial System of Ceylon

**SUPREME COURT.**—The Supreme Court consists of a Chief Justice and eight Puisne Judges. It has appellate and revisional jurisdiction in civil cases from all courts except Village Tribunals. It exercise's no original jurisdiction in civil cases except in matters provided for in the Ceylon Courts of Admiralty Ordinance (Chapter 7, Legislative Enactments of Ceylon) and the Ceylon (Non-domiciled parties) Divorce Jurisdiction Order in Council of 1936.

The Supreme Court has original jurisdiction in all criminal cases and exclusive jurisdiction in respect of the more serious Offences, such as homicide, rape, and the graver types of house-breaking and robbery. In practice it seldom tries cases which do not fall within its exclusive jurisdiction. It usually sits with a jury and tries cases committed for trial by a Magistrate's Court.

**THE COURT OF CRIMINAL APPEAL.**—The Chief Justice and the Puisne Judges of the Supreme Court are the Judges of this Court. Any person convicted on a trial held before the Supreme Court may appeal to the Court of Criminal Appeal against his conviction on any ground of appeal which involves a question of law; or, with specified leave, against his conviction on any ground of appeal which involves a question of fact; or, with specified leave, against the sentence passed on his conviction unless the sentence is one fixed by law.

**DISTRICT Courts.**—The District Courts, of which there are at present 21 in the Island, have unlimited original civil (including testamentary and mairimmial) jurisdiction and criminal jurisdiction in respect of all offences which are not within the exclusive jurisdiction of the Supreme Court. District Courts try only cases committed to them for trial by a Magistrate's CoUrt. \* District Courts may pass any of the following sentences :—

- (a) Imprisonment of either description for a term not exceeding two years.
- (b) Fine not exceeding one thousand rupees;
- (c) Whipping;
- (d) Any lawful sentence combini .g any two of the sentences aforesaid.

When a person is convicted at one trial of any two or more distinct offences the aggregate punishment it can award is twice the punishment mentioned above.

\*Under Section 152 of the Criminal Procedure Code, a Magistrate who is also a District Judge may, in the course of an investigation of an offence which is triable by a District Court, proceed to try such offence summarily when he is of opinion that it can properly be so tried. In such a case there is no previous committal.

Under Sections 3 and 4 of the Ceylon Courts of Admiralty Ordinance the Governor has power to appoint a District Court to have a limited Admiralty jurisdiction. The District Court of Colombo alone has been appointed to exercise such jurisdiction.

**MAGISTRATES' COURTS.**—There are 30 Magistrates' Courts and 3 Municipal Courts in the Island. The offences which a Magistrate's Court may try are specified in the schedule to the Criminal Procedure Code, Chapter 16, of the Ceylon Legislative Enactments. Various Ordinances have also made other offences triable by a Magistrate's Court. A Magistrate's Court may not pass a sentence heavier than the following, except where an Ordinance has specially empowered it, to do :—

- (a) Imprisonment of either description for a term not exceeding six months;
- (b) Fine not exceeding one hundred rupees ;
- (c) Whipping, if the offender is under 16 years of age ;
- (d) Any lawful sentence combining any two of the sentences aforesaid.

When a person is convicted at one trial of any two or more distinct offences the aggregate punishment it can award is twice the punishment mentioned above.

Magistrates' Courts also hold preliminary inquiries into crimes with a view to committal for trial by a District Court or the Supreme Court. If after inquiry a Magistrate is of opinion that an accused person should be discharged he makes order to this effect. [Where a Magistrate is of opinion that an accused person should be committed for trial to a court of competent jurisdiction, he commits him accordingly and forwards the record of the proceedings at the inquiry to the Attorney-General, who either presents an indictment against the accused person or quashes the commitment or orders the case to be remitted to the Magistrate for further proceedings.]

A special jurisdiction is conferred on Magistrates' Courts to make orders for the maintenance of wives and children.

**COURTS OF REQUESTS.**—Courts of Requests have original civil jurisdiction (subject to certain exceptions) in all actions in which the debt, damage, or demand or value of the land in dispute does not exceed Rs. 3000.

There are 30 Courts of Requests in the Island, of which one (the Colombo Court) is presided over by a separate Commissioner. All the others are presided over by a District Judge or a Magistrate who acts as Commissioner of Requests in addition to his duties as District Judge or Magistrate.

### Municipalities

In Colombo, Kandy and Gallo there are reformed Municipal Councils whose members (of either sex) are now elected by the persons resident within the limits of any ward and (a) owning property assessed at an annual value of not less than Rs: 10 or (b) occupying property in respect of which the person in possession or occupation pays a monthly rent of not less than Re. 1 or (c) having an income of not less than Rs. 15 a month, and by the ratepayers not resident within the Municipality but owning property assessed at an annual value of not less than Rs. 600 and situated within the limits of a ward of the Municipality. The Mayor is elected annually from among the Councillors and is not a Civil Servant as formerly.

### The Colombo Municipality

The Colombo Municipality was created by a proclamation dated November 22, 1885. Its area is 8,317 acres, exclusive of the lake, and its population 284,155, by Census of 1931, exclusive of the military and shipping. The estimated mean population for 1940 was 327,402 and the average density per acre was 39.4. The progress of the Municipality in revenue and expenditure is presented in the following summary :—

| Year. | Revenue.   | Expen-<br>diture. | Year. | Revenue.  | Expen-<br>diture |
|-------|------------|-------------------|-------|-----------|------------------|
|       | Rs.        |                   |       | Rs.       | Rs.              |

## LOCAL BOARDS AND SMALL TOWNS

The Local Boards of Health and Improvement were first established in 1876 in the town's not deemed sufficiently large or important to be constituted Municipalities.

Out of the 12 Local Boards of Health and Improvement, which were in existence, there now remains only one—that of Minuwattgoda—all the others having been converted into Urban Councils.

The Government Agent is *es-officio* Chairman and Treasurer for the Board but the Assistant Government Agent exercises all the powers conferred on the Government Agent by the Ordinance.

## LOCAL GOVERNMENT BODIES

Until the end of 1932 in eleven of the smaller towns there were Urban District Councils with elected Chairmen, two-thirds of the members being elected by the ratepayers and one-third being nominated by the Governor. On the recommendation of the Executive Committee, 16 more such Councils were established from January 1, 1933, in place of 10 of the Local Boards of Health and Improvement, in 5 of the small towns previously **Administered by Sanitary Boards, and also in** place of the Board of Improvement of Nuwara Eliya. These Councils are now known as Urban Councils and since January 1, 1940, are being administered under the Urban Councils Ordinance No. 61 of 1939.

Groups of smaller towns are administered by the Sanitary Boards of the various districts.

In the rural areas, there are Village Committees for groups of villages. These groups are divided into wards, each of which elects one member. In 1932 an Ordinance was passed precluding officials from being *elected* as Chairmen. These Committees deal with minor local affairs and under an Ordinance of 1934, have powers approximating to those of Urban Councils.

24 Sanitary Board towns were reverted to Village Committee jurisdiction as from January 1, 1941.

Roads other than main thoroughfares and other than those in charge of the local authorities mentioned above, are maintained by District Committees.

## Road Committees

Road Committees are of two descriptions—Provincial and District. The elective principle is in operation in the constitutions of District Road Committees, and it is far older than the first introduction of the same principle in Municipalities, Urban Councils and Local Boards; and provision is also made for the representation of the three nationalities or classes of Europeans, Burghers and other Ceylonese on each District Road Committee—a feature which is absent from Municipal Councils, Urban Councils and Local Boards.

The Government Agents are the Chairmen of Provincial Road Committees and the Government Agents or Assistant Government Agents, the Chairmen of the District Road Committees as circumstances allow.

**Village Tribunals and Committees**

Village Tribunals and Village Committees were established by the Ordinance No. 26 of 1871 during the Governorship of Sir Hercules Robinson (afterwards Lord Rosmead).

The principal Ordinance under which these are now worked is the Village Committees Ordinance (Chapter 198). Village Committees are now vested with powers approximating to those of Urban Councils.

The Village Communities Ordinance has been amended by Ordinances Nos. 50, 60 and 61 of 1988 and 11 and 31 of 1940. Some of the important changes effected by these amending Ordinances are the constitution of Village Committees as corporate bodies with perpetual succession and power to hold property, the taxation of land and the restriction of the franchise to people domiciled in Ceylon.

Villagers elect their own Chairmen and Members of the Village Committee.

Village Tribunals have been established throughout Ceylon except in certain towns. They are presided over by a President, assisted by three villagers as Councillors, and have the power to try breaches of the rules framed and passed by Village Committees as well as petty civil and criminal cases. The maximum penalty in a criminal case is a fine of Rs. 20 or two weeks' rigorous imprisonment. Appeals from sentences of Village Tribunals or Committees can be made to the Government Agent and further appeals to the Governor. Village Tribunals have no jurisdiction over Europeans and Burghers.

According to the latest Blue Book, there were nearly 270 Village Tribunals and 397 Committees scattered over the Island,

## THE UNIVERSITY OF CEYLON

The University of Ceylon came into existence on July 1, 1942, when the Ceylon University Ordinance, No 20 of 1942, was brought into operation by proclamation. It incorporates two Government Colleges, the Ceylon University College founded in 1921 and the Ceylon Medical College founded in 1870. It might almost be said to have been born under fire, for during the consideration of the Bill the State Council adjourned for an air raid alarm, and a Japanese fleet was steaming towards Ceylon when the Bill was passed on April 2, 1942.

The Ceylon Medical College was founded as an "elementary school" and gradually progressed until, in 1888, its diplomas were recognised by the General Medical Council. University College, on the other hand, was established as the nucleus of a University. The need for a University had been felt even in the early years of the British occupation, and from 1884 there was a growing body of opinion, which swelled to a chorus in the early years of the present century, for the establishment of a University of Ceylon. Whereas the war of 1914-1918 held up the project, that of 1939 onwards, by impeding communications with London, helped it forward. The University College was founded in 1921 with the intention that it should confer diplomas until the University was in being. It was thought that the period of transition would be short, and, in order to obtain experience of University standards it was decided for this short period to prepare students for external degrees of the University of London.

The "short period" was in fact 21 years. The delay was due to controversy over the site which was really a controversy over the nature of the University. University College was given certain buildings in the "educational triangle" in Cinnamon Gardens which had originally been planned for it. It was then decided to use them for Royal College, and to this day they bear witness to the decision. Before they were ready, however University College was established in College House, now occupied by the offices and common rooms, and, when the buildings were ready, the College was moved into them. The buildings and space were both insufficient. In 1923, therefore, Mr. R. Marrs suggested that the University should take over the whole "educational triangle," which would give enough space until the lease of the Racecourse fell in and its disposal could be "reconsidered." In reply Sir Cecil Clementi minuted that the real solution was to move Royal College to Buller's Road; and the University College Council agreed with him.

Later in the same year, however, it was agreed that Royal College should stay where it was and that the University should move to Buller's Road. The plan was approved by the Legislative Council, which voted Rs. 3,000,000 for buildings and equipment. In 1925 the Finance Committee of the Legislative Council decided that the fund need not be limited to Rs. 3,000,000 but that if necessary Rs. 4,500,000 or even more might be spent." The Legislative Council agreed to provide another Rs. 1,500,000 when it was required. The maximum accommodation of this University was to be 500, and plans were prepared on that basis.

Meanwhile, Mr. Marrs and the College Council had been drafting a Constitution and working out schemes of study. When Mr. Marrs went on leave in 1926, nearly all the preliminary planning had been completed. There had been throughout a body of opinion which favoured a residential University outside Colombo. In April 1926, or thereabouts, a memorandum was submitted to the Governor, Sir Hugh Clifford, by persons anxious to secure such a University. The Governor thereupon summoned a very representative body to Queen's House and, as a result, a University Site Committee, with Mr. Justice Akbar as Chairman, was appointed "to consider the question of a site for the proposed Ceylon University". The Committee reported that the University should be unitary (i.e. not consisting of affiliated or constituent Colleges) and residential. It considered sites in Buller's Road (Colombo), Ratmalana, Peradeniya and Uyanwatta, in the Dumbara Valley, and recommended the last of them. As a result of a question by Mr. Mahadeva in the Legislative Council, certain sites at Mawilmada and Aruppola, Kandy, were also inspected. The Legislative Council resolved in March, 1928, that the University should be unitary and residential, that its site should be Aruppola, and that its constitution should be determined by a Commission.

Sir Walter Buchanan-Riddell, Bart., was Chairman of the Commission, which was appointed in July, 1928, and reported in January, 1929. It recommended "at the commencement" Faculties of Arts, Science, Law, Medicine and Engineering, with a staff of 17 Professors, 6 Readers, 42 Lecturers (16 part-time), 19 Assistant Lecturers and 15 (part-time) Demonstrators. The University would begin with 500 students and the cost would be over Rs 10,000,000. The courses of study and the Constitution proposed were in all essentials those drafted by Mr. Marrs and the College Council from 1923 to 1926. A Bill was drafted on these lines and was read a second time in the Legislative Council in 1930. It proceeded no further owing to the constitutional changes made by the Orders in Council of 1931. The Executive Committee of Education began to consider the matter soon after

its establishment, but it was impossible to expect at that date that an additional Es. 6,000,000 would be forthcoming for such a project. In 1934 it was agreed to proceed with building on the Aruppola site and meanwhile to convert the University College into a University.

#### UNIVERSITY PARK

Considerable legal difficulties arose over the transitional provisions, and they were not finally resolved until 1939. Meanwhile, doubts had arisen as to the suitability of the Aruppola site because it had been involved in the great malaria epidemic of 1934-35. In 1937 Drs. Paul and Nell submitted a memorandum to the Board of Ministers urging that the University be established on the Peradeniya site. In 1938 it was decided to purchase this site, less the Court Doraifield, for just under Bs. 750,000. The site therefore forms what is now called the University Park. The Court Doraifield, consisting of 27 acres, forms an enclave of private property in a stretch of Crown and University land extending from the southern boundary of the University Park to the northern boundary of the Agricultural Department's experimental farm.

In 1940 Professor Patrick Abercrombie and Mr. A. C. Holliday were invited to prepare plans for the University Park. The plans are now complete and such parts of them as can be carried out in wartime are been put into operation by the Minister for Communications and Works. They assume that in the Faculties of Oriental Studies, Arts and Science alone there may be over 1000 students in residence. The Park is too small for additional Faculties, and more land would be required if Faculties of Law,, Agriculture, Medicine and Engineering were to be established in Peradeniya. The acquisition of the Park is, therefore, a first step in a development which may extend over 50 years.

#### PROCESS OF TRANSITION

The termination of the controversy over the site enabled attention to be concentrated on the process of transition. The creation of a University even in the most favourable conditions is not an *easy* process and it would have been impossible to bring it about simultaneously with its physical transfer to the University Park and its transformation from a non-residential University College to a residential University. Either the University College had to be transferred as such, or the University had to be established in Colombo in order that it might be transferred when the buildings were ready. The actual transition from University College to University takes four years even if no new Faculties are created. The Executive Committee of Education therefore decided that the University should first be created in the hope that when the transition was completed, some at least of the buildings at Peradeniya would be ready for occupation.

Accordingly, the Bill of 1930 was drawn from its dusty pigeon-hole, modified to suit the changed conditions, and presented to the State Council. It was passed in two weeks, and the whole process, from the presentation of the first memorandum to the third reading, occupied only 49 weeks. The University provided by the Ordinance, No. 20 of 1942, is unitary and residential with its seat "in or near Kandy." The residential provisions have however, been temporarily suspended until the transfer to Peradeniya takes place. It is believed that the Faculties can be transferred or established one by one, so that the suspension can be progressively removed as the building programme proceeds.

Meanwhile, the University has opened its doors with 90 & students in the Faculties of Oriental Studies, Arts, Science and Medicine and a full-time staff of 15 Professors, 19 Lecturers, 14 Assistant Lecturers, 8 Demonstrators and Tutors, and a substantial number of visiting Lecturers and Demonstrators. Though it is called a University and acts as a University, it is of course only the nucleus of a University and has a long process of expansion before it.

#### LEGALLY AUTONOMOUS

The University is legally autonomous being a corporation consisting of the Chancellor, the Pro-Chancellor, the Vice-Chancellor, the Court, the Council and the Senate. It works through committees which include, in addition to the Court, the Council and the Senate, four Faculties, a Board of Studies, a Scholarships Board, a Board of Residence and Discipline, a General Board of Studies and Research (not yet in being), and numerous *ad hoc* bodies. The key to the whole is the central administration operated by the Registrar, who is Secretary of all committees, and the Vice-Chancellor who is Chairman of the Senate and the Council and (in the absence of the Chancellor and the Pro-Chancellor) of the Court and also a member of all other committees. The Vice-Chancellor has specific duties under the Ordinance, and in particular it is his function to *see* that the Ordinance, the Statutes, the Acts and Regulations—the various kinds of University legislation—are observed. So far the University has made nearly 80 Acts and over 20 Regulations. These are made available in a volume of University legislation and in the terminal University Gazette.

Though it is legally autonomous, however, the University cannot be genuinely autonomous like all the great Universities of the world until it can operate on endowments and fees without calling for subsidies from the State Council. It has no general endowments, no endowed teaching posts, and few endowed scholarships. It is thus almost completely lacking in one of the essentials of a University.

## PRIMARY AND SECONDARY EDUCATION

**CONTROL:** Primary and secondary education is under the control of the Minister and the Executive Committee of Education, and is administered by the Department of Education assisted by a Board of Education and certain advisory bodies and committees. Before Ordinance No. 31 of 1989 came into operation on September 1, 1939, primary and secondary education, under the control of the Minister and his Executive Committee, was administered by the Department of Education assisted by a Board of Education and 23 Education District Committees.

**BOARD OF EDUCATION:** The Board consists of members nominated by the Governor, and the Director of Education is its Chairman. The main function of the Board is to advise the Director on matters relating to education in the Island. It has no administrative or executive powers.

**LOCAL ADVISORY COMMITTEES:** A Local Advisory Committee consists of 12 members. These committees are appointed for the following areas:—

- (a) The area within the administrative limits of each of the Municipal Councils ;
- (b) Each area within the administrative limits of an Urban Council specified by the Governor ;
- (c) Each of such other areas as may be specified by the Governor.

The Local Advisory Committee only gives advice or makes recommendations on educational matters relating to its area as may be referred for consideration to the Local Advisory Committee by the Executive Committee or by the Director.

**Loos', EDUCATION SCHEMES:** The Governor may appoint, under certain conditions, a Municipal Council, District Council or a Village Committee as an education authority for an area to supply the educational needs of that area.

### The Education Department

**INSPECTION:** For inspection purposes, Ceylon has been divided into 4 divisions with a Divisional Inspector as the senior administrative and inspecting officer of the division.

**Arrineeses:** Attendance at schools between the ages of 6 and 14 is compulsory, subject to a few exceptions, when school accommodation is provided within a reasonable distance of the pupil's residence.

**TYPES or SCHOOLS:** There are 3 distinct types of schools

- (a) Schools administered directly by the Government ;
- (b) Schools assisted by the Government and under the immediate control of private managers ;
- ::) Schools maintained by the Government and managed by the Divisional Inspector of Schools with the assistance of local managers.

**GRANTS:** In the case of Sinhalese and Tamil Schools, the grant is the total salary cost of an adequate staff, on condition that *each* teacher has been paid the standard scale appropriate to his (or her) qualification by the 10th of each month. In addition, a small amount is paid for maintenance and equipment. In the case of fee-paying schools, the grant is based directly upon the salary cost and no additional amount is paid for maintenance.

**STUDIES:** In the primary classes, the essential subjects are (1) Language, (2) Number, (3) History, (4) Geography, (5) Physical and Practical exercises which include Drawing and Music.

In the post-primary classes, a minimum of two optional subjects is added from the following groups :-

- (1) Elementary Science, Rural Science or Housecraft ;
- (2) Literature, Music, or Drawing.

**RELIGION IN SCHOOLS** : No applicant can be refused admission into any Assisted School on account of religion, nationality, race, caste, social status or language. There is also a "conscience clause" in the Education Ordinance with regard to the conditions under which religious instruction is permitted in assisted schools.

**MEDIUM** or **Insmanonow** : The medium of instruction varies according to the type of school. In Sinhalese and Tamil schools, the medium of instruction for the first four or five years of school is the mother tongue, after which a course of English is introduced. In the case of English Schools, alternative methods are employed:—

- (a) Pupils may begin the study of English at the earliest stage of school life. Such pupils must have some knowledge of English before admission.
- (b) There may be a 2-year special course in English for pupils who transfer from Sinhalese and Tamil or Bilingual Schools to English Schools. The pupils who enter this course are approximately 9 years of age and have already received instruction in their own mother tongue in the primary standards. After completing this course, pupils are able to enter the ordinary standard of the English School, in which the medium of instruction is English. In the majority of such schools Sinhalese and Tamil continue to be taught throughout the upper classes.

Thus the pupils are given the following alternative courses:—

- (1) A full course of instruction in the Sinhalese or Tamil languages ;
- (2) A full course of instruction in Sinhalese or Tamil along with instruction in English ;
- (3) A full course of instruction in English not merely for pupils whose mother tongue is English, but for those who at the beginning of school life have no knowledge of that language.

**OF SCHOOLS** : The type of instruction given in Ceylon schools falls under two main headings :-

- (1) Non-vocational instruction.
- (2) Vocational instruction.

**Under** the heading of non-vocational instruction is included the type of instruction which is general and academic, and by far the larger number of schools come under this class.

Schools are classified as follows :—

| ENGLISH.         | BILINGUAL        | SINHALESE OR TAMIL |
|------------------|------------------|--------------------|
| Collegiate       | Senior Secondary | Senior Secondary   |
| Senior Secondary | Junior Secondary | Junior Secondary   |
| Junior Secondary | Primary          | Primary            |
| Primary          |                  |                    |

**PRIMARY** Schools provide instruction from the Kindergarten up to Standard V.

**JUNIOR SECONDARY** Schools provide instruction from the Kindergarten to the School Leaving Certificate.

**SENIOR SECONDARY SCHOOLS** provide, in addition to the course for the Junior Secondary Schools, a further course up to the London Matriculation Standard.

**COLLEGIATE** SCHOOL is an English School which provides a course of instruction from Form I or Standard VI up to the London Matriculation Standard.

**VOCATIONAL SCHOOLS** : These are schools which give a specialised form of instruction. There are full-time and part-time schools.

- (a) Full-time schools include institutions for the training of teachers, technical schools, agricultural schools and industrial schools.
- (b) In part-time schools, instruction is given to pupils in a variety of home industries in addition to the ordinary academic course.

**EXAMINATIONS** : The curriculum in the Secondary Schools is largely controlled by the Cambridge Syndicate and the London Matriculation Examinations.

## Public Works Department

In the earlier days of British rule in Ceylon such road construction and buildings as were required were executed by the Royal Engineers or other Military Officers. The present Public Works Department is the offspring of a small Civil Department subsequently formed, the head of which was styled Civil Engineer and Commissioner of Roads, who used to be Surveyor-General as well. By the Ordinance No. 16 of 1867 it was enacted that the Office of Civil Engineer and Commissioner of Roads should be termed the Department of Public Works" and its head " Director of Public Works." The Irrigation Department, which was a branch of the Public Works Department, has been re-organized and constituted a distinct department.

The estimated expenditure on Public Works in 1943-44 is Rs. 1,675,283 (Recurrent Expenditure) Rs. 5,854,311 (annually Recurrent) and Rs 2,688,494 ( Extraordinary).

# Marriages, Births and Deaths

## General Marriages

The marriage laws of Ceylon, other than those relating to Kandyan and Muslim marriages, are contained in the Marriage Registration Ordinance (Chapter 95 of the Legislative Enactments).

2. Notice of an intended marriage must be given in the prescribed form by one of the parties to the Registrar of the division in which both have resided for not less than 10 days then next preceding. The Registrar's fee for the entry of such notice is 50 cents.

3. Where either or both the parties, slot being a widow, widower, or a divorced person, are under 21 years of age, the notice must embody the consent of the person or persons whose consent is required by law. The person whose consent is required is the father, or, if he be dead or under legal incapacity or absent from the Island, and unable to make known his will, the mother. If both father and mother be dead or otherwise unable to make known their will, the person who has been appointed (in writing) as guardian by the father or the mother or by a competent court, may give consent. If there be no such guardian appointed or if the person whose consent is required unreasonably withholds such consent, the consent of the District Court should be obtained.

4. If the parties to an intended marriage reside in different divisions of the Island, the notice must be given by each of them to the Registrar of the division in which he or she has resided for not less than 10 days then next preceding and a certificate for the marriage obtained from each Registrar to whom notice has been given. In such case each Registrar should, immediately after notice is entered, give to the party a certified copy of the notice and send a like copy to the other Registrar. For each such copy he is entitled to a fee of 50 cents in addition to the fee payable for the notice.

5. If both parties to a marriage reside in the same province or revenue district notice given by one of the parties to the Provincial Registrar or Assistant Provincial Registrar (as the case may be) will be sufficient; but such notice should bear a stamp of the value of Rs. 10.

6a. Where only one party to the intended marriage has acquired the residence of 10 days in the Island, such party may *give* notice (on paper bearing stamps of the value of Rs. 10) pending the arrival of the other party, to the Registrar, Assistant Provincial Registrar or Provincial Registrar in whose territorial jurisdiction he or she is resident.

6b. Where only four days' residence has been acquired by one or both of the parties, notice may be given on a stamp of Rs. 30. A residence of 4 days is indispensable.

7. In reckoning the period of residence necessary prior to *giving* of notice a day is taken as meaning a clear period of 24 hours beginning at midnight and ending at, midnight.

8. Notice of marriage in the prescribed form is a necessary preliminary and cannot be dispensed with.

9. At any time not less than 12 clear days nor more than three months after the entry of the notice, and where two notices have been given, after the entry of both notices, the Registrar will, on application and on payment of a farther fee of 50 cents, issue a certificate, for the marriage, unless issue of such certificate has been forbidden by caveat or otherwise. In reckoning the period of 12 days the day of giving of notice and the day of issue of certificate should be excluded.

10. No marriage can take place after the expiration of 3 months from the entry of notice. Where notices given to two Registrars are entered under different dates the period of 3 months counts from the earlier notice. Where a marriage has been forbidden, the time taken up in the disposal of the, object ion to the marriage does not count in the calculation of the period,

11. To obtain a Special Licence for solemnisation of a marriage immediately after entry of the notice, or at any time before the expiration of the period of 12 days mentioned in para. 9, the party giving the notice should make a declaration on a stamp of Thirty Rupees before the Registrar-General, or the Provincial Registrar (Government Agent) or the Assistant Provincial Registrar (Assistant Government Agent), to the effect that there is no legal impediment to the marriage, producing before such officer a copy certified by the Registrar of such notice. If there have been two notices (see pars. 4) copies of both should be produced.

12. The Registrar-General cannot accept notice of, or solemnise, marriages. In the Registrar-General's Office the Registrar-General's two Assistants are also Additional Assistant Provincial Registrars of Marriages of the Colombo District, and if notice be given to one of them in terms of pars 5 or 6, a licence could be obtained from him or the Registrar-General almost immediately after the entry of the notice. In Kachcheries, too, the case is similar, as in each of the Kachcheries there is a Registrar of Marriages and a Provincial Registrar or an Assistant Provincial Registrar as the case may be.

Registrars do not inform the head office of notice given to them, but they send once a month duplicates of marriages registered by them.

Notices of European weddings in the Colombo district are chiefly given at the head office ; in other districts, at the local Kachcheries.

The parties are not bound to state in the notice the date fixed for marriage, but if the marriage does not take place within three months from the date of notice the preliminaries must be gone through afresh. The intended place of marriage is required to be stated in the notice.

Marriages may be solemnised in registered places of public Christian worship or in the appointed office or station of the Registrar between the hours of six in the morning and six in the afternoon. The Registrar's fee for solemnising a marriage is Rs. 1'50. A Registrar or a Minister may, upon a licence obtained from the Registrar-General, Provincial Registrar or Assistant Provincial Registrar, solemnise a marriage at any place and hour the parties may wish. Application for such licence to a Registrar must be on a stamp of Rs. 30 except where the female party to the marriage belongs to a class of people to whose customs it is contrary to require their females to appear in public before wedlock.

Immediately after the solemnisation of a marriage by a Clergyman a statement of the particulars thereof must be entered by him in *duplicate* in the book provided for the purpose. *Both these entries* must be signed by the Clergyman, by the parties married, and by two credible witnesses, whose full names, occupations and residences must be stated. The Clergyman must within seven days from the date of the marriage transmit the duplicate statement to the Provincial Registrar or Assistant Provincial Registrar who then enters the marriage in his Register. It is this entry that constitutes registration.'

All persons desiring to secure legal proof of their marriages should obtain an extract from the Registrar's register by applying to him or to the Registrar-General, Provincial Registrar or Assistant Provincial Registrar.

The following are the fees payable to Registrars under the Marriage Registration Ordinance.

|   |     |          |
|---|-----|----------|
| Solemnising Marriage in his office  | ... | Rs. 1'50 |

| For every additional year   |     | 0'50     |
| For every certified copy or extract of marriage   | ... | 0 50     |

• Any Minister who fails to transmit the duplicate statement to the Provincial Registrar or Assistant Provincial Registrar as aforesaid within one week after the solemnisation of the marriage is liable to imprisonment, simple or rigorous, not exceeding two years, or a fine not exceeding Rs. 1,000, or both.

[Solemnising a marriage outside his office where the female party belongs to a class of people to whose customs it is contrary to require their females to appear in public before wedlock Rs. 5, and where the female party does not belong to such a class Rs. 20. If by an Asst. Provincial Registrar outside his office Rs. 50. If by a Provincial Registrar Rs. 75. In these cases the Registrar is entitled to a further fee of 50 cents for every mile going and returning].

The marriages of Muslims are governed by the Muslim Marriage and Divorce Registration Ordinance (Chapter 99).

**Marriage of British Subjects (Facilities) Act, 1915**

The provisions of Section 1 of the above Act, enacted in England to facilitate marriages between British Subjects resident in the United Kingdom and British Subjects resident in other parts of His Majesty's Dominions or in British Protectorates, were extended to Ceylon by the passing of the " Marriage Registration (Amendment) Ordinance, No. 27 of 1917." According to this Ordinance :

(1) **FOR A MARRIAGE TO BE SOLEMNISED IN THE UNITED KINGDOM**, the party resident in Ceylon may, as if the marriage is to be solemnised in the Colony, give the usual notice to the Registrar of the division where he or she has been resident and obtain his certificate ;

- (a) Where such party has been resident for not less than ten days in the division, the notice should bear a stamp of Rs. 10.
- (b) Where the residence falls short of ten days, the notice is liable to a stamp of Rs. 30.

(2) **FOR A MARRIAGE TO BE SOLEMNISED IN CEYLON**, a certificate for marriage issued in England and Wales by a Superintendent Registrar or in Scotland or Ireland by a Registrar, or a certificate of publication of banns in Scotland, will be sufficient, without any of the usual preliminaries being gone through by the party in Ceylon. But it is necessary that such party should have been resident in the Island at the date of notice in the United Kingdom.

**Foreign Marriages**

Notices of marriages intended to be solemnised under the " Foreign Marriage Act, 1892," where one of the parties is resident in Ceylon, are regulated by the Foreign Marriages Ordinance (Chapter 100). Notice of a marriage intended to be solemnised under this Act may be given to the Registrar-General or the Assistant Registrar-General by one of the parties intending such marriage who has resided in some place in Ceylon for three consecutive weeks immediately preceding the giving of such notice, or to the Provincial Registrar or Assistant Provincial Registrar in whose territorial division he or she has been residing for 10 days.

Every such notice must be in the prescribed form, bear a stamp of Rs. 10, and be signed by the party giving notice, in the presence of the Registrar-General, or the Assistant Registrar-General, or Provincial Registrar, or Assistant Provincial Registrar, or a Justice of the Peace, or a Notary Public, and of two credible witnesses.

At any time not less than 14 days nor more than three months from the receipt of such notice by the Registrar-General he shall, upon the application of the party giving notice, and unless there is any impediment or objection, issue a certificate of such notice.

A marriage under the "Foreign Marriage Act, 1892," between persons either of whom is under the age of sixteen years is void—(see " The Age of Marriage Act, 1929").

# Registration of Births and Deaths

## REGULATIONS FOR SUPERINTENDENTS OF ESTATES, ETC.

### Births

The Registration of Births and Deaths is provided for by the Births and Deaths Registration Ordinance.

The father or mother, or, in case of the death, illness, absence or inability of the parents, the occupier, or an inmate of the house where a child is born, must give notice of the birth to the Registrar of the division in which the event occurred within 42 days.

In case a living new-born child is found exposed it is the duty of any person finding such child, and of any person in whose charge such child may be placed, to give information to the Registrar within seven days after the finding of such child.

Notice of birth may be given to the Registrar either personally or by a written declaration in the prescribed form by the responsible informant. In the case of information given by declaration, the declaration should be stamped with a stamp of 25 cents and duly perfected.

After three months and within one year, a birth can be registered only upon an order of the Registrar-General, Provincial Registrar or Assistant Provincial Registrar : for this purpose a declaration bearing a stamp of Re. 1 must be made before such officer, a Justice of the Peace, a President, Village Tribunal, or a Commissioner of Oaths, by the person seeking registration. Before the registration of the birth of any child over three months of age the declarant may be required to produce the child before the Provincial Registrar or Assistant Provincial Registrar or the local Registrar of the division.

For the registration of a birth after 12 months a declaration bearing a stamp of Rs. 5 should be made before the Registrar-General, Provincial Registrar or Assistant Provincial Registrar, a Justice of the Peace, a President, Village Tribunal, or a Commissioner of Oaths, and the Registrar-General's authority obtained.

Births which took place not earlier than the 1st January, 1868, and not later than the 30th June, 1897, which have not been registered or regarding which it is doubtful whether they have been duly registered, and the registration of which is not hereinbefore provided for, may be registered by the Registrar-General upon a declaration which may be made before the Registrar-General, the Provincial Registrar (the Government Agent) or the Assistant Provincial Registrar (the Assistant Government Agent) a Justice of the Peace, a President, Village Tribunal, or a Commissioner of Oaths, bearing stamps of the value of Rs. 10.

For the purpose of registering a birth under the two preceding paragraphs it is incumbent on the parties applying for registration to adduce evidence documentary and oral, to the satisfaction of the Registrar-General, *re* date of birth, marriage of parents, identity of child, *bona fides* of the applicant, etc.

In case a birth has been registered and no name entered, the name subsequently given to the child may be registered or, *when* it is necessary to add to or alter a name such addition or alteration may be made, provided the child is under 21 years of age, after due inquiry and upon an application to the Registrar-General, Provincial Registrar or the Assistant Provincial Registrar by the parent or legal guardian of the child and upon a duly stamped declaration in prescribed form made before a Justice of the Peace. When such person is in parts beyond the Island the declaration may be made before a Commissioner for Oaths or a British Consul and the amount of stamp duty should be remitted to the Registrar-General. The stamp required for such declaration is of the value of Re.1 *if* two years have not elapsed from the date of registration, and of the value of Rs. 5 if more than two years have elapsed.

Every birth or still-birth in a town proclaimed under Section 30 of the Ordinance should be notified to the Registrar of the Division within 36 hours of its occurrence by the father, or (if he was not actually residing in the house at the time of its occurrence) by any person in attendance upon the mother at the time of, or within 36 hours after, the occurrence. This notification is in addition to, and not in substitution for, the usual information to be given within 43 days,

Births on estates *should* be reported within 48 hours of the occurrence by the Superintendent of the estate to the Medical Officer appointed under "The Medical Wants Ordinance" who shall transmit the report without delay to the Provincial Registrar or Assistant Provincial Registrar, as the case may be.

A Registrar may upon reasonable doubt refuse to certify the legitimacy of a child in the register, and may call for proof of parents' marriage.

A Registrar is not entitled to any fee from the public for registering a birth,

### Deaths

It is the duty of the nearest relatives present at the death or in attendance during the last illness of the deceased, and, in default of such relatives of every other relative of the deceased dwelling or being in the same division as the deceased and, in default of such relatives, of each person present at the death, and of the occupier of the house in which it occurs, and, in default of the persons above-mentioned, of each inmate of the house and of the person causing the body to be buried, to give, within *five days* of the death, information to the Registrar.

In case a death occurs in a place which is not a house or a dead body is found elsewhere than in a house, it is the duty of every relative of the deceased person having knowledge of any of the particulars required to be registered concerning the death and, in default of such relative, of every person present at the death and of any person finding, and of any person taking charge of the body, and of the person causing the body to be buried, to give information to the Registrar *within five days* next after the death or the finding of the dead body. A Registrar is not entitled to any fee from the public for registering a death.

Superintendents of estates must within 48 hours of the occurrence report all deaths on estates to the officer appointed under the "Medical Wants Ordinance."

In the principal towns in which the special provisions for the registration of deaths have been brought into operation, no dead body or still-born child can be buried or cremated unless a certificate has been obtained from the Registrar, or from a Police Officer or headman, or from the Medical Attendant or (in the *case* of a death where an inquest has been held) from an Inquirer. It is an offence to remove the body of a person who died in such town without a permit from the Municipality, the Assistant Government Agent or the Police Magistrate.

### Miscellaneous

Failure to report a birth or death within the prescribed time—which in the *case* of a birth is 42 days and of a death five days—is a punishable offence.

Persons bound to *give* information respecting births and deaths must attend the office of the Registrar to *sign* the register. In cases where it is not convenient to attend, a declaration bearing a stamp of 25 cents, setting out the particulars necessary to be inserted in **the** register, and the name, description, and place of abode of the informant, must be sent to the Registrar. No register of birth or death shall be received in evidence which is not signed by the informant, or the particulars of which are not certified by the Registrar according to such declaration.

Persons applying to the Registrar-General, Provincial Registrar, Assistant Provincial Registrar or Registrar are allowed to search the Registers of Births and Deaths and to take extracts therefrom at the following charges:—

|  |          |
|--|----------|
| Stamp duty on every written application for search of copy or both                           | Re. 1'00 |
| Do on certificate of Birth or Death  | Cents 50 |
| Fee for search of Registers of each Registration Division for a period of three months . . . | 25       |
| Do do for one year   | 50       |
| Do do for every additional year or part of a year  | 50       |
| Do certified copy of entry   | 50       |
| Do attesting a Declaration of Birth ...  | 50       |

In the case of birth certificates required to be produced in a Government or Grant-in-aid School in terms of the Education Code, an inclusive charge of 50 cents will be charged, if the application is made or countersigned by the head of a school recognized under the Code.

## POSTAL RULES AND RATES

The General Post Office in Colombo was commenced in October, 1891• and completed in July, 1895. Its cost, including electric light fittings was Rs. 372,962. The architect was **Mr. H. P. Tomalin** of the Public Works Department. The present Telegraph Office and Telephone Exchange was commenced in 1907 and completed in February, 1911.

There are in the Islasiti 185 post offices, 275 sub-post offices and about 501 Village and Railway receiving offices. Money Order business is done in the post offices and sub-post offices, while telegraph facilities are available in 314 of them. There are also 34 Railway telegraph offices open to the public for the receipt and despatch of telegrams. Village receiving offices were established in 1886.

The revenue of the Post Office during the financial year 1941-42 totalled Rs. 7,434,189, of which Rs. 987,609 was from telegraph and Rs. 1,720,682 from telephone receipts. The expenditure totalled Rs. 7,774,260. In 1882 the revenue and expenditure totalled Rs. 324,538 and Rs. 581,514 respectively, showing a lose to Government. In 1941-42, 55,958,000 letters etc., were dealt with internally ; while 5,151,700 were received from, and 4,151,300 sent to the United Kingdom and other British Possessions ; and 423,100 were received from, and 341,000 sent to Foreign countries, out of a grand total of 66,025,100. Of this 39,889,400 were letters, 8,281,800 post cards and 17,853,900 newspapers, book packets, samples and circulars.

### Money Orders

All post offices in the Island transact Money Order, Savings Bank and Parcel Post business. The inland money order system was first introduced into the colony in 1877. The value of orders issued in that year amounted to Rs. 500,000, against Rs. 31,125,874 in 1933; Rs. 32,163,830 in 1934 ; Rs. 32,832,156 in 1935 ; Rs. 33,686,397 in 1935-86 ; in 1936-37, Rs. 33,835,071 ; in 1937-38, Rs. 36,528,450 ; in 1938.39, Rs. 35,255,273 ; in 1939-40, Rs.85,943,292; in 1940-41, Rs. 38,365,222 ; in 1941-42, R13. 50,735,285 and in 1942-43, Rs. 81,430,723.

The exchange of money orders with India commenced in 1880. In that year orders were issued on India to the value of Es. 347,334. The value of orders issued and **paid** in the Island in 1942-43 were Rs. 19,352 319 and Rs. 738,066 respectively.

The *system* of exchange of orders with the United Kingdom was introduced in 1873, in which year the value of orders issued amounted to Es. 4,815. In 1938.39, Rs. 198,685 were issued and Rs. 44,291 were paid. In 1939-40. Rs. 167,373 by ordinary service and Rs. 49,721 by air mail were issued and Rs. 39,556 were paid. In 1941-42, Rs. 370,021 were issued and Rs. 97,399 were paid. In 1942-43, Rs. 846,958 were issued and Es. 135,543 sere paid.

### Postal Orders

In 1938-39 local orders numbered 816,244 valued at Rs. 3,497,982 while 44,407 British Orders valued at £18,375-9-6 were issued and 10,444 British Orders valued at £6,603-3-7 were paid.

1,120,909 Ceylon Postal Orders yawed at Rs. 5,617,071 were issued and 3,866 British Postal Orders to the value of £2177-2.0 were issued and 74,168 orders to the value of X46,921-5.8 were paid during the Financial Year 1942-43

### Parcel Post

There were 899,350 parcels dealt with in 1941.42. Of these 665,127 were internal; to and from the U. K. 51,078; to and from India 164,459; to and from other British Possessions 14,020; and to and from foreign countries 4,666 The figures for 1940.41 were, 425,940 Inland; to and from U.K. 30,106; to and from India 112,148; and to and from other British Possessions 14,271 and to and from foreign countries 2,172.

### Ceylon Savings Certificates

Savings Certificates business was introduced for the first time on September 19, 1938. Certificates of the face value of Rs. 5, 10, 50, 100, and 1,000 are on sale at all Post Offices at a purchase price of Rs. 4.25, 8.50, 42.50 85/- and 850/- respectively. On surrendering these certificates 5 years after the date of issue the holder is entitled to receive a sum equivalent to the face value of the certificates. The difference between the face value and the purchase price represents 3.3 per cent. compound interest.

The maximum value of certificates which may be held by an individual is Rs. 10,000 and by a recognised association or an approved Savings Group is Rs. 20,000.

The total of the face value of certificates issued during 1942-43 was Rs. 3,911,789.25 as compared with Rs. 423,335 in the previous year.

### Telegraphs

On September 30, 1943, there were 10,290 miles of Telegraph wire (including Railway Telegraph wires) of which 3,172 are laid underground. In 1857 the Ceylon Government decided to open telegraphic communication in the Island, and accordingly the first line was completed in January, 1858, between Colombo and Galle, along the sea coast, a distance of 74 miles.\* In June, 1858, the telegraph line was extended from Colombo to Kandy, and in October 1858, direct telegraphic communication was established with India by the construction of a line from Colombo via Kandy and Anuradhapura to Mannar and Talaimannar, nearly 250 miles in length.

In 1859 the Morse System was introduced into Ceylon in place of the old needle instrument. In 1864 the telegraph wire was extended from Kandy via Dambulla to Trincomalee, but, owing to the frequent interruptions from herds of wild elephants which pulled down and broke the posts, this line was dismantled in 1881 and another and a better route from Anuradhapura to Trincomalee took its place.

On March 2, 1865, the first direct message from Europe was received in Colombo. On August 12, 1866, the first direct message was received from America in Colombo. In July 1880, the telegraph lines were transferred from the Indian to the Ceylon Government. The total number of telegrams disposed of in 1882 was 58,240; in 1900, 467,476; in 1939-40, 1,328,000; in 1941-42, 1,702,787 and in 1942-43, 2,636,360.

Telegraphic Money Orders between Ceylon and India were introduced on February 1, 1909.

### Telephones

The Telephone system in Colombo was taken over by the General Post Office on January 1, 1896, from the Oriental Telephone Company at a cost of Rs. 42,666, with 56 subscribers, 25 miles of posts and 151 miles of wire. In 1899 at a cost of about Rs. 60,000, earth return circuits were replaced by metallic return circuits on account of earth currents and induction from the Electric Tramway system. On September 30, 1943, there were 25,004 miles of telephone overhead wires and 42,269 miles of underground wires making a total of 67,273 miles, while there were 6,595 subscribers with 10,530 instruments. This is besides 1,061 miles of line and 1,578 miles of wire in connection with private licensed telephone exchanges, to which there were 213 subscribers with 489 instruments (connected to the Trunk System) and 169 subscribers with 522 instruments (not connected to the Trunk System).

## Value-Payable Post

Under this system the Postal Department accepts for transmission within the Island any postal articles, and collects from the addresses and remits to the senders sums ranging from 50 cents to Rs. 600, provided that such postal articles do not contain coupons, tickets, certificates or introductions designed for the sale of goods on what is known as the "Snowball System", or for the furtherance of any fraudulent, obscene, immoral or unlawful object or understanding or closing any goods forwarded for sale in accordance with or in pursuance of any such system.

The same facilities are available between Ceylon and India (British and Portuguese) and Ceylon and the British Somaliland Protectorate.

On parcels addressed to India and returned to Ceylon as undeliverable all warehousing charges incurred in India shall be collected from the senders.

Pass—Local, : At the Time of Posting : 5 cents if the sum recoverable from the addressee is under Rs. 5; 10 cents if Rs. 5 or up to Ks. 10; 15 cents if over Ks. 10. At the time of delivery : M. O. Commission, postage and warehousing charges.

FOREIGN : At the time of posting registration fee of 15 cents ; at the time of delivery Money Order commission 20 cents for every Bs. 10 or fraction thereof plus Customs clearance fee 25 cents per parcel.

## Cash on Delivery Service

This arrangement for collecting from the recipient, for remittance to the sender by special money order, the value of articles sent by parcel post, is in operation between Ceylon and the United Kingdom. The amount to be collected under the Cash on Delivery System is called the "Trade Charge". The maximum "Trade Charge" on a parcel posted in the United Kingdom for delivery in Ceylon is £40; and on a parcel posted in Ceylon for delivery in the United Kingdom is Rs. 250.

If the insurance of a Cash on Delivery Parcel is desired, the ordinary regulations for insurance must be observed.

The sender must furnish on the cover of the parcel his name and address and the word "Remboursement," followed by the amount of the "Trade Charge" in rupees and cents. No erasure or alteration of the entry of the money is allowed. An incorrect entry must be completely obliterated and a fresh entry made.

The sender of a Cash on Delivery Parcel may request, at the time of posting, that, if the parcel cannot be delivered as addressed, it may either be treated as abandoned or tendered for delivery at a second address in the country of destination. If the Bender avails himself of this facility, his request must be written on the parcel and the relative Customs declaration in the form prescribed.

The sender must fill up a special Trade Charge Card with all the particulars required on the card, except those in the space headed "Service Instructions". No erasure or alteration of the entry of the amount of the Trade Charge is allowed.

The sender must prepay, by means of postage stamps affixed to the parcel, a Cash on Delivery fee of 15 cents for each Rs. 15 or fraction thereof of the Trade Charge, and a special posting fee of 10 cents. These fees are, in every case, additional to the ordinary postage and insurance fee, if any, which must be prepaid in the ordinary way.

Cash on Delivery parcels received in Ceylon will be delivered by postmen in the ordinary way, except that if the Trade Charge on any parcel exceeds Rs. 25 the parcel will be kept at the Post Office to be called for, notice of its arrival being sent to the addressee.

The postmen are strictly forbidden to give up a Cash on Delivery parcel or to open it at the request of the addressee, or to allow the addressee to open it, until the Trade Charge and any other charges due have been paid.

A delivery fee of 20 cents, in addition to the amount of the Trade Charge, will be collected from the addressee of a Cash on Delivery parcel received from a place abroad. The Customs clearance fee for each parcel is 25 cents. The amount of the Trade Charge collected will be remitted to the seeder of the parcel without deduction.

No receipt for a Trade Charge will be given.

### Poste Restante

Correspondence of any kind to be called for is, as a rule, taken in all Post Offices except Branch Post Offices and Town Sub-Post Offices. The words "To be called for" or "Poste Restante" should appear in the address.

### Customs Duty on Foreign Parcels

All parcels are liable to be opened for Customs examination, and their contents are subject to Customs duty according to the laws of the country of destination. The duty is collected from the addressee on delivery. The fee for clearance of Foreign Parcels through the Customs is 25 cents for an article of the parcel post; 10 cents for an article of the letter post if the sum recoverable as Customs duty does not exceed Re. 1 and 15 cents if over Re. 1.

### All-Air Mail Service to the United Kingdom, U. S. A. and Canada

Air Mail Correspondence to Great Britain and Northern Ireland should bear the clear superscription "By Air Mail." No superscription of the air route is necessary. The combined postage and air fee payable is Re. 1'00 per 4 oz. for letters and 50 cts. for postcards.

2. An All-Air Service is available for correspondence to Canada and the U. S. A. Such correspondence should bear the superscription "Ceylon-U. K.-Canada" or "Ceylon--U. K.-U. S. A.," as the case may be, and should be prepaid at the following air mail rates:—

Canada...Rs. 2'10 per 4 oz. for letters and Rs. 1'05 per post card.  
U. S. A....Rs. 2'60 per 4 oz. for letters and Rs. 1'30 per post card.

R. The above services to U. K. and Canada will be in addition to the Air-Sea Services. Senders are reminded that every Air Mail article should bear the Air Mail label or the clear superscription "By Air Mail,"

## TELEGRAPH RULES AND RATES

### Inland

The rate for Inland ordinary telegrams is 50 cents and for urgent telegrams **1** cents for the first ten words or less, including address, and five cents and ten cents for each additional word respectively. All charges must be prepaid in cash or postage stamps. Each word or initial in the address, which includes the name of addressee and the name of the telegraph office of destination, will be charged for. It is optional for the sender to require his own name and address to be telegraphed. If he does so, they will be charged for in the same manner. The name of the office of origin and the service instructions, if any, will be telegraphed free of charge.

Post offices which are not in telegraphic connection with telegraph offices receive Inland ordinary telegrams only and despatch them by post to a telegraph office. Such telegrams are sent postage free by first post.

The urgent service will be available only between postal-telegraph offices and no urgent telegram can be sent from, or addressed to, a Railway telegraph office. The sender of an urgent telegram should write the word "urgent" on the telegram form in the space provided for the purpose.

### Late Fees

A telegram will be accepted during the hours when an office is Closed, if the terminal office is open or its attention can be gained, on payment of an extra fee of Re. 1. Urgent telegrams will be accepted only during hours the Postal-Telegraph Offices are open for telegraph business.

### Forms

Three telegram forms are issued for the use of the public—a white one for Inland and Indian, a Blue one for Foreign Cheap Rate and a yellow one for Foreign Ordinary or Urgent Telegrams. They can be obtained in reasonable quantities at any telegraph office free of charge and the public are recommended to use them. Books, containing 100 forms for either Inland or Foreign telegrams can be purchased at the principal post and telegraph offices at 25 cents each, with or without counterfoils.

### Delivery

Delivery free within a radius of 3 miles ; over 3 and up to 4 miles 40c.; for each additional mile or part of a mile 20c. Double charge for telegrams booked between 5 p.m. and 5 a.m. Advice of Delivery 50c.

For the registration of standing instructions regarding the delivery of telegrams during fixed hours a fee of Rs.5 per annum or Rs.2.50 for six months is payable. For each change in such instructions during the period covered by the fee already paid, a fee of Re.1 is payable.

### Reply-Paid Telegrams

The cost of a reply may be prepaid, but the amount so paid should not be less than the unit rate for an Inland ordinary telegram, nor shall it contain a fraction of five cents. The minimum prepayment on a telegram to India is the unit rate for an Indo-Ceylon ordinary telegram. The sender of a reply-paid telegram should write, in the space provided on the form, the words "Reply Paid", in case the amount to be prepaid is the unit rate referred to, or "Reply Paid— ---" followed by the amount if the sum is inure than the unit rate.

### Registered Abbreviated Addresses

Any person may register an abbreviated or arbitrary address and delivery instructions on payment of a registration fee of Rs. 15 per calendar year payable in advance. For registration on or after July 1, the fee is Rs. 7-50 to December 31, following.

### Indo-Ceylon Telegrams

Indo-Ceylon telegrams are those exchanged between India on the one side and Ceylon on the other, and are subject to the regulations laid down by the Governments of India and Ceylon. Such regulations are generally the same as those for Inland telegrams-except where otherwise stated

Charges : Express—Rs.2'30 for first 12 words or less and 15 cents for each additional word. Ordinary—Re. 115 for first\* 12 words and 10 cents for each additional word.

Ordinary telegrams to India are not accepted on Sundays and the four principal Telegraph holidays, namely, Christmas day, New-Year's day, Good Friday and the King's Birthday. On these days, only " express telegrams" will be accepted.

Indian Express telegrams are also accepted with a late fee of Re. 1 in respect of office of origin only.

### Foreign Telegrams

Foreign telegrams are those sent to or received from places outside Ceylon and India and are subject to the regulations laid down by the International Telecommunication Convention.

The following table gives the rates for certain countries. Presently, however, all telegraphic communications with these countries are subject to censorship.

### Daily Letter Telegrams

Daily Letter telegrams in plain language, which are dealt with telegraphically throughout, are accepted at all post offices in Ceylon to those countries shown in the "Post Office Guide" on any day of the week and are ordinarily delivered at destination on the next morning but one after the day of acceptance irrespective of the handed-in time at the office of Origin. For example, a telegram handed 4n, in Colombo at any time on the let of October, will be delivered in London on the morning of the 3rd idem. The date shown on Daily Letter telegrams received in Ceylon from places in America will be the date the telegram was received in London, and not the date it was Landed in America.

The charge for a Daily Letter telegram is normally one-third of the charge for full-rate telegram of the same length and by the same route subject to a minimum charge for twenty-five words at such reduced rate. The minimum charge for twenty-five words and the charge for the additional words of these telegrams and the places where such telegrams can be sent are shown in the "Post Office Guide."

Daily Letter telegrams should be indicated by the letters DLT before the address.

Reply Paid, Post Restante and Telegraph Restante telegrams **and** Pa Service advises only are admitted in this service.

### Deferred Telegrams

Deferred Telegrams are accepted on condition that they are transmitted after full rate telegrams and press telegrams.

### Night Letter Telegrams

Night Letter Telegrams in plain language are accepted at all Postal Telegraph Offices in Ceylon. These are normally delivered at destination in the morning after the day of handing in. The charge for a Night Letter telegram is normally 1/3rd that for a full rate telegram subject to a minimum charge for twenty-five words at such reduced rate. *Night* Letter Telegrams should be indicated by the letters NLT before the address.

### Press Messages

Inland—Re. 1 per 100 words or less; additional 50 words or less 50 cents. To United Kingdom—20 cents per word. To India—Re. 1 for first 32 words or groups of five figures; every four additional words or groups of five figures 10 cents. To Burma—Rs. 1.50 for first 32 words and 20 cents for each additional word.

To Eire and all Empire countries except Burma a flat rate of 6 cents per word *via Imperial* only.

A fee of Re. 1 shall be prepaid for an acknowledgment of due delivery of a telegram in India.

### Multiple Address Telegrams

A telegram will be accepted for delivery at two or in three addresses served by the same telegraph office, on payment of a single telegram charge for the total number of words in the message including all its addresses, in addition to a copying fee for a copy in respect of each address. The copying *fee* is 25 cents and 5) cents for every hundred words of ordinary and urgent telegrams respectively, plus 21 cents and 5) cents respectively for any excess.

Senders should write, before the first address, the instruction "--- addresses" or "TM" which will be counted as one word, in assessing the telegraph charge of the message.

The copy delivered at each address will bear only the address proper to it unless the sender by writing, on the telegram form, the instruction —CTA. —(which is counted and charged for as one word) requires the communication of all addresses to each addressee.

Multiple telegrams cannot be sent *via* North-Atlantic cables.

### Plain Language Social Telegrams

*To Empire Countries and Eire.*—The cheapest rate by which Greeting telegrams can be sent from Ceylon to Empire Countries is the Plain Language Social Telegrams rate (OLT rate), which is Rs. 3'50 for the first 12 words or less, and 30 cents for each additional word. GLT messages may contain not only Greetings but also family news and non-commercial personal affairs.

*To Other Countries.*—To non-empire countries, the cheapest rate by which such Greetings can be sent is by the Deferred rate, except where these telegrams contain more than 16 chargeable words when the Night Letter telegram rate (NLT) or the Daily Letter Telegram rate (DLT) should be resorted to.

*To and from Troops.*—Greetings to and from Troops can be sent under the EFM (Expeditionary Force Telegrams) class at the flat rate of Re. 1-70 per telegram. The authorised Standard Texts must be used. A list of the Standard Texts is available at every telegraph office.

## Telegraphic Money Orders

### INLAND, INDO-CEYLON AND FOREIGN

The Telegraph Money Order system is in operation between all Money Order offices in Ceylon on the one side, and those in India and the United Kingdom on the other. The maximum amount for which a Telegraph Money Order can be issued is Rs. 600. In the case of United Kingdom the maximum amount is £40. No annas or cents are allowed. The charge for a Telegraph Money Order, in addition to the usual rate of commission on an Ordinary Money Order, is:—

**INLAND AND INDIAN TELEGRAPH MONEY ORDERS—(1)** The Cost of the telegram of advice calculated at the current rates for Inland and Indian telegrams, as the case may be, and (2) a fixed fee of 10 cents irrespective of the amount of order.

**FOREIGN TELEGRAPH MONEY ORDER (OTHER THAN INDIAN)—**The cost of the telegram of advice calculated at the current rates for Foreign telegrams.

Forms of application for Telegraphic Money Orders can be obtained at any Post Office.

### Radio Telegrams

Radio telegrams will be accepted at any Postal Telegraph Office in Ceylon for transmission to ships equipped with radio telegraph apparatus.

British, Indian, or Colonial Government Telegrams to His Britannic Majesty's Ships of War ... Free.

Private Telegrams to His Britannic Majesty's Ships of War 40 cents per word via Colombo Radio and 25 cents per word *via* Matara Radio.

All other Government or Private Telegrams 65 cents per word via Colombo Radio only.

On Radio telegrams sent to Spanish and Swedish ships the charge is 6 cents per word, and to Finnish ships 50 cents per word. The address, should be as complete as possible.

### Transmission of Telegrams by Telephone

Persons connected by telephone with a Postal-telegraph office may transmit by telephone to such office messages intended to be further transmitted by telegraph, or, where practicable, to be delivered from such office to the respective destinations as telegrams, provided such persons pay the usual cost of such telegrams. No additional charge will be made for this service.

In Colombo telegrams are delivered over the telephone free of charge to addressees who are subscribers connected to the same Exchange. Such delivery is restricted to those who have registered abbreviated addresses, registered delivery instructions at the office of delivery, or whose telegrams are directed to the telephonic address.

### Copies of Telegrams

#### INLAND, INDO-CEYLON AND FOREIGN

A fixed charge of 26 cents is made for every copy furnished, if the telegram does not exceed 100 words. Should the particulars furnished be insufficient to enable the Check Office at once to trace the telegrams applied for, the cost of searching for them must be deposited by the applicant. A fee of Re. 1 is charged for searching through the telegrams of any telegraph office for one day; thus, if it be required to examine the telegrams of two telegraph offices over a period of five days, the searching fee will be Rs. 10.

Inland and Indo-Ceylon telegrams are preserved for three months and Foreign telegrams for ten months from the month following that in which the telegram was handed in, after which period they are destroyed.

On the ground of pending or contemplated judicial proceedings, application may be made by an interested party for the preservation of specified telegrams. Such application must be made within the period of preservation, and such telegrams will then be preserved for a period of three-months beyond the ordinary date for destruction.

## Post Office Telephone Service

The Post Office Telephone system is available for local, trunk (long distance), Indian and Overseas communication. The Indo-Ceylon, Burma-Ceylon and overseas Radio Telephone services have, however, been suspended for the duration of the war. There are 811 Call Offices in the island,

### Subscription Charges

*In Colombo* messa40 Rate Charges are in force, under which a subscriber pays an annual or monthly rental for the installation and a fee of 5 cents for each local call originated at such installation. There are two different rates; viz., Business and Non-business, which are uniform throughout the City irrespective of the distance from the Exchange. An installation charge of Rs. 20 is payable on each new connection.

*At other places* the rental is an inclusive charge (flat rate), based on the shortest hypothetical distance from the Exchange, covering an unlimited number of free local calls during the working hours of the Exchange. No separate charge is made for installation or maintenance of a telephone connection.

## Radio in Ceylon

The Broadcasting Service in the Island is operated by the Post and Telegraph Department, with the Postmaster-General as head of the Service.

Experiments in broadcasting were commenced in 1923, and by June, 1924 a regular service was established. The usually accepted "birthday" of Broadcasting in Ceylon is 16th December, 1925, when the then Governor, Sir Hugh Clifford, opened a new transmitter which was used both for broadcasting and telegraphy purposes.

Broadcasting was then on a wavelength of 800 metres. This wavelength was assigned to Ships Service by the Washington Convention of 1927, and it was necessary for Colombo to select a new wavelength. It was decided to work on a wavelength of 428.6 metres and a new transmitter built for broadcasting purposes only was brought into operation in June, 1930. This transmitter was replaced in 1937 by a new 5 kw transmitter operating on the same wavelength. The new transmitter was opened on 6th June, 1937.

At present two transmitters are in operation, viz, the medium wave transmitter (5 kw)—wavelength 428'6 meters (700 hefs per second) and the shortwave transmitter (7'5 kw), wavelength 61'2 metres (4900 k0 per second).

Colombo has a special receiving station erected to receive programmes from Foreign short wave stations for relaying purposes. Programmes in the B. B. C. Overseas Service are regularly re-broadcast.

A full time Superintendent of the Colombo Station was appointed in September, 1937. The designation was in 1943 altered to Controller of Programmes and their officer is now responsible for all programmes radiated from this centre. There is also an Advisory Board whose function is to advise the Postmaster-General on broad lines of policy.

Schools Broadcasting which was begun in 1931 takes place during the hours 11.30 a.m. to 11.05 a.m., every school day. There are at present several colleges and schools with facilities for listening-in to these programmes.

The Broadcasting Station issues a Programme Supplement twice a month. This Supplement is available to licence holders only and is distributed free of charge, except for postage. Licence holders who wish to receive it should apply to the Controller of Programmes enclosing a postage stamp or stamps to the value of 50 cents to cover postage for one year.

The programmes are also published in the daily press and in the "Ceylon Radio Times," which is the monthly journal of the Radio Club of Ceylon and South India. It is issued to members of the club but members of the general public can obtain issues from any bookstall at cents -120 each.

The number of licensed listeners at the end of 1940 was 9,736, an increase of 2,115 on the number at the end of 1939. At the end of 1911, the number of licensed listeners was 1001. At the end of 1943 there were 11,879 licensees.

### British Broadcasting Co-operation (World Service)

The British Broadcasting Corporation operates a number of shortwave transmitters for its world service. Since September 29, 1941, the British Broadcasting Corporation World Service on shortwaves has taken on a new form. Instead of transmissions designated by the numbers 1 to 6, the daily service is now divided into four periods described according to the areas of the world for which they are destined.

### Colombo Wireless Station

The station is open for radio-telegraph traffic with ships.

The Coast Station charge is 40 cents per word. The position of the main transmitting station is 79 deg. 52 min. 46 sec. East, 6 deg. 55 min. 14 sec. North. An auxiliary transmitter is in position 79 deg. 50 min. 40 sec. East, 6 deg. 56 min. 4 sec. North. The station keeps watch on 600 metres more or less continuously, and on 800 and 36'00 metres according to schedules. 600 metres is its working wave. The normal range of the Colombo Radio Station is 500 miles or about two days' steaming from or to the port of Colombo, but this distance is considerably exceeded when conditions are favourable and also according to the equipment on board the ships. With ships fitted with the shortwave system communication is possible for a few thousand miles ; ships not so fitted can be reached through those having the facility.

### Rules for Licences

• The following are among the rules made under Section 5 of the Telegraph Ordinance, Chapter 147 of the Legislative Enactments of Ceylon:—

No person shall import for private use, install, establish, maintain, possess or work any wireless telegraph station or apparatus in any place in Ceylon or on board any British ship registered in Ceylon or shall install, establish, or work any wireless telegraph station or apparatus on ward any aircraft in Ceylon, unless such person has applied for and obtained a licence in that behalf from the Postmaster-General.

Provided that where wireless telegraph apparatus forms part of the personal baggage of a person arriving in Ceylon. it shall be lawful for the Customs authorities at the port of importation to grant a licence to import such apparatus, subject to a declaration being made by the importer in a form which they will supply.

Provided further that where any person imports or has in his possession wireless telegraph apparatus which in good faith he does not intend to use, he shall immediately report the fact to the Postmaster-General, who on being satisfied that the issue of a licence for the time being can reasonably be withheld, may grant permission in writing for such importation or possession without any charge being made therefor for a period not exceeding six months, the permission being renewable for further periods at the discretion of the Postmaster-General.

Any person desirous of obtaining a licence for broadcast listening-in shall apply to any of the principal Post Offices in Ceylon in the prescribed form, and every such application shall have affixed to it a stamp of the value of ten rupees.

The Postmaster-General may, however, grant free of stamp duty broadcast listening licences to persons certified to be blind by a Government Medical Officer, and in respect of apparatus intended for the use of the inmates of hospitals and other similar institutions maintained for the relief of suffering, to the person in charge of the hospital or institution.

No person shall import for trade purposes or sell any apparatus for wireless telegraphy, unless such person has applied for and obtained a licence in that behalf from the Postmaster-General. Any person desirous of obtaining a licence for such importation or sale shall apply to the Postmaster-General in the prescribed form, and every such application shall have affixed to it a stamp of the value of thirty rupees.

#### DURATION OF LICENCES AND THEIR RENEWAL

All licences issued under these rules shall be for 12 months only dating from the date of issue, excepting broadcast listening-in licences which shall be for twelve months from the date of installation of Wireless Telegraphy Apparatus for broadcast listening-in. Applications for renewal shall be made on Form E (to be obtained from the Postmaster-General on application) in the case of traders' licences to the Postmaster-General. In the case of broadcast listeners' licences, application for renewal may be made at any of the principal Post Offices in the Island, on form A I to be obtained from such offices. Applications for renewal shall be made in all cases within 14 days of the expiration of the licences, and shall be accompanied by the expired licence forms. All renewal licences shall be for a period of twelve months from the day following the last day of the expired licence.

The fee for and in respect of all licences for broadcast listening-in shall be ten rupees per annum in respect of each station licence, and shall be paid by postage stamps affixed to the application form.

#### LICENCES FOR EXPERIMENTAL PURPOSES

The issue of Licences for the importation, installation, establishment, maintenance and working of wireless telegraph stations or apparatus for experimental purposes is at present suspended.

#### LICENCES FOR IMPORTATION FOR TRADE PURPOSES

(1) Licences for the importation for trade purposes or sale of apparatus for wireless telegraphic purposes shall be granted subject to the following conditions

- (a) The applicant shall be a recognized and established dealer in electric apparatus.
- (b) The licence shall be in all respects subject to all the provisions of the Telegraph Ordinance and to the rules made thereunder which may be in force during the period of the licence. \*
- (c) No wireless telegraphic apparatus for transmitting purposes shall be imported or sold of greater power than is laid down in the rules.†

(2) The licensee shall keep a book record of all licensed apparatus which he imports and of all disposals of the same in such form as the Postmaster-General may direct, and shall produce his book and book record on demand of the Postmaster-General or of any officer authorised in that behalf in writing by him.

\* Subject also to Defence Regulations, if any.

† Transmitters not to be imported during the War.

## RULES REFERRING TO CONVEYANCE OF TRAFFIC BY PASSENGER TRAINS

### GENERAL

**MAINTENANCE** or Szavien.—The connections between Main and Branch Lines will be maintained as far as possible, but may be broken, in which case the Railway will not be liable for any consequences arising therefrom; nor do *the* Government guarantee that trains shall arrive and depart at the times specified in the Time Tables. Further, they will not be responsible for any loss, inconvenience, or injury, which may arise from delays or detention,

**TIME FOR BOOKING PASSENGERS** —The booking offices at certain important Stations, as may be notified from time to time by the General Manager, will be open for the issue of tickets throughout the day, except during such times as the stations are authorised to be closed. Booking offices at other stations will be open for the issue of tickets half an hour before the advertised time for the departure of trains.

**Bemire or PARCELS**, Room oa Bustuass.—Booking Offices will be open on each week day for the receipt and delivery of parcels, horses, carriages, dogs and Live Stock booked by passenger train from half an hour before the first train arrives at or departs from the station until half an hour after the last train has arrived at or departed from the station. On Sundays, Good Friday and Christmas day the offices will be open from half an hour before the arrival or departure of each train until half an hour after its arrival.

**INQUIRIES**.—Any inquiry for information should always be made from the principal officers-in-charge of the different stations.

**Isorrudyr**.—Passengers are requested to report direct to the General Manager any instance of incivility, want of attention, misconduct on the part of persons employed on the Railway. Complaints should embody the name and address of the complainant.

**CHARATTITIES**.—Railway servants are forbidden, under pain of dismissal, to ask for or receive from the public any fee or gratuity.

**GIVING CHANGE, AND ERRORS IN TICKETS**.—In order to prevent inconvenience and delay, passengers should provide themselves with suitable change to pay for their tickets etc., as the booking clerks may not at all times be able to give change. Passengers should also examine their tickets and change before leaving the booking office counter, as errors cannot afterwards be rectified.

**WEIGHTS**.—The Railway are not bound by any weights inserted by consignors on their forwarding orders, as freight charges are calculated on the weight obtained, when necessary, by weighing on the weighing machines on the Railway Department; nor will the Railway admit any responsibility in respect of the weights thus arrived at, either as a basis of claim for shortage or as regards their absolute correctness between buyer and seller, such weights being taken merely for the purpose of calculating freight charges.

**AMOUNTS UNDERCHARGED** by the Railway staff may be subsequently recovered. Parcels, luggage etc., are liable to be detained and sold and the proceeds utilized to clear the charges due and expenses incurred by the Railway.

**PAYMENTS**.—Cheques or other orders for payment of money are not accepted unless especially authorized by the General Manager.

**CRILDREN.**—**Children under three years of age will be conveyed tree ;** children of that age and under twelve years will be charged half fare.

Two children may travel on one full fare ticket. The fare to a charged on half tickets issued to children under **12 years of age is half 'the single** fare.

Farasts **SERVANTS AND NUREBB.**—One female servant only will be allowed to accompany her mistress in a first or second class carriage (whether in charge of children or not) on payment of second or third class fare respectively, provided such an arrangement does not interfere with the comfort of other passengers travelling in the same compartment.

Nurses in charge of children, when not accompanying their mistresses must pay the fare of the class in which they travel.

**TRAVELLING WITHOUT TICKET.**—Should a passenger from an unavoidable cause be unable to obtain a ticket before starting, he must as soon as possible report the fact to the Guard, and pay his fare at the destination station, or earlier if demanded. A passenger found travelling without a ticket, or with a ticket of expired date, or with a ticket so torn or mutilated that the date, number, station from or to cannot be deciphered, will be liable for payment of the penalty prescribed and in the alternative liable to prosecution.

A passenger who unintentionally travels beyond the distance for which he has paid fare will be allowed to return to the station to which he was booked on payment of a single fare for the distance overriden, provided he returns by the next passenger train, and does not leave the station premises in the interim.

**EXCESS FARES.**—When a passenger before commencing his journey wishes to change his ticket for one of a higher class and pays the difference of fare, the original ticket issued will be taken back and a fresh one for the higher class issued instead.

When a passenger in the course of his journey wishes to change to a higher class of carriage than that for which he holds a ticket he must inform the Guard of the train, who will see that he pays the excess fare and obtains an excess fare ticket, either at the station at which the change is made or at the first station at which this can be conveniently done. Care should be taken to obtain a printed and numbered excess fare ticket for the payment made, otherwise the fare may be demanded again at any other station at which tickets are examined or collected.

Every passenger who pays excess fare should demand and at once receive a receipt for the amount paid.

All claims for refund of excess charges must be made within six days of the date of payment, otherwise they may not be entertained. Claims should be addressed to the General Manager, Colombo, and should be written on forms which can be had free of charge from any Station Master. Claimants should carefully note the numbers printed on their tickets, as claims cannot be entertained unless the numbers are given.

**REFUNDS ON TICAIRRS.**—Refunds will not be allowed on Platform Tickets, Rail Motor Tickets and return halves of Excursion or Concessionary and Week-end Tickets.

All refunds on tickets will be subject to a deduction of 10 per cent., minimum 10 cents, for each full or half ticket, except in the case of passengers who were unable to complete their journey owing to accidents on the Railway or any default on the part of the Railway.

Applications for refund on single tickets fully or partially unused, must be supported by a certificate from the Station Master at the issuing or intermediate station at which the journey was terminated.

**EXTENSION OF TISNO.**—A passenger who is left behind at a roadside station through sickness or other unavoidable cause, or who is unable to use his ticket by the train for which he has been booked, should at once communicate with the Station Master with a view to having his ticket made available by another train, if the cause of delay be satisfactorily explained, otherwise the passenger will have to purchase a fresh ticket.

## RAILWAY RATES AND REGULATIONS

**SEASON TICKETS.**—Season tickets are not transferable, and holders will be held responsible for seeing that they are not used by any other person. Season ticket holders are required to have their tickets with them when travelling, and to show them when required to do so by a Railway official ; otherwise they will be liable for payment of the penalty prescribed.

Season ticket holders travelling in a higher class than that for which the season ticket is made out, without having paid the excess fare due, or without having informed the guard, are liable to prosecution.

Any season ticket found in use after the second day of issue without being signed or name written upon will be forfeited. Any person found travelling with an expired season ticket after two days beyond the date of expiry of the ticket will be liable to prosecution.

**FREE CONVEYANCE OF BREAKFAST AND TIFFIN BASKETS.**—Breakfast and tiffin baskets of season ticket holders are conveyed free in both directions at owners' risk.

In other sections of the railway they are allowed 20 minutes for refreshment, and, at the expiry of this time, they must leave at the first station the train stops.

First class passengers may also be required to leave restaurant cars in accordance with the table shown above to make room for other passengers.

Passengers holding second class tickets who may desire to travel in the restaurant cars for a longer distance than stated above may be allowed to do so only if the seats occupied by them are not required by any other passengers, and then **only** on prepayment of the difference between the second and first class fare to the end of the next section.

Passengers paying excess fare are requested to see that they obtain a receipt on a printed Railway form *giving* particulars of the fare paid from the officer to whom the payment is made, and it shall be the duty of such officer to give the receipt on demand.

Passengers are not allowed to put their feet on the seats of the cars.

Under no circumstances shall dogs be brought into the cars. As the accommodation is limited, packages of luggage, etc., cannot be taken into the cars, but must be placed in the guard's van in the usual manner,

## MERCANTILE SECTION

### BANKING AND COMMERCE

Shortly after Ceylon became a Crown Colony in 1802, the Government abolished the Cinnamon monopoly which had been established by the Dutch. It was then that Captain James Stuart, the Master Attendant of Colombo made arrangements with Messrs. Arbuthnot & Co., of Madras to buy and ship Ceylon produce drawing against the shipments on Bills of Lading.

The Ceylon Chamber of Commerce was established on March 25, 1839, with Joseph Read, a former sea Captain as Chairman. The exports in the year 1839 were valued at £331,696 and the imports at £510,661.

In December, 1841, Governor Sir Colin Campbell applied to the Home Government for permission to increase the issue of paper money from £87,400 to £100,000 on the ground that the former amount was inadequate to the wants of the community ; but the Lords of the Treasury refused to give their sanction to any increase of what they regarded as " the floating debt of the Island."

In 1844 a bill was passed extending to private bankers in Ceylon the privilege of issuing paper money on terms which were certainly unduly liberal towards the banks and unjustly unfavourable towards Government and the public.

After this, Government notes, with the advantage of being a legal tender continued to circulate side by side with private bank notes till 1856, when they were finally withdrawn.

Early in 1854 branches of the Mercantile Bank of India, London and China were opened in Colombo and Kandy, and in 1858 this Bank obtained a Charter.

The advance in the issue of paper money in Ceylon after the Government withdrew from the field will be understood from the following contrast :—In 1854 (when the Mercantile Bank commenced and added its notes to those of the Oriental Bank Corporation) the circulation was

|   |             |
|---|-------------|
| Oriental Bank notes                               | ... £61,000 |
| Government notes say                              | ... £70,000 |
|   | £131,000    |
| In 1884; notes of the two Banks (Rs. 4,573,619) * | £457,382    |
| Increase in paper money in 30 years               | £326,362    |

So that since 1854 the paper money circulation in Ceylon had more than trebled ; but the maximum was reached in 1877 when the note circulation had more than quadrupled, the average circulation being £522,902.

The Bank of Madras established a branch in Colombo on July 9, 1867, and opened an Agency in Kandy on August 19, 1888; but it ceased to exist from January 26, 1921, and was merged in the Imperial Bank of India consisting of the Banks of Madras, Bengal and Bombay, under a Government of India Act, while a Ceylon Ordinance made provision for the transfer to the Imperial Bank of India of the undertaking and property of the Bank of Madras.

On January 2, 1881, the National Bank of India (established in India in 1863) opened a branch in Colombo ; on July 11, 1892, in Kandy ; and on September 1, 1892, in Nuwara Eliya.

\* The issue of the O.B.C. **alone for March**, 1884, was Rs, 3,652,124 and of the C.M.B. Rs. **921,495 =total Rs. 4,573,619.**

The Chartered Bank of India, Australia & China had a Mercantile Agency in Colombo for many years, but only opened a regular Branch Agency in July, 1892.

In the same way the Hongkong and Shanghai Bank also established an Agency in Colombo on July 1, 1892.

On May 3, 1884, came the greatest crash in the history of Ceylon and perhaps of Eastern banks, in the stoppage of the Oriental Bank Corporation ; and on January 1, 1885, the Ceylon Government, which (by Sir Arthur Gordon) had guaranteed the O.B.C, note<sup>3</sup>, issued its own notes, and these were in circulation on February 29, 1932, to the amount of Rs. 41,838,902, the average amount of coin in the vault during that month being Rs. 13,862,076. •

Next came the voluntary winding up and reconstruction of the Chartered Mercantile Bank, changing its name into "Mercantile Bank of India, Ltd.," from February 1, 1893.

On January 8, 1917, the Bank of Colombo (a purely Ceylonese venture) was opened, but it failed and closed its doors in 1921.

On May 1, 1920, the Eastern Bank, Ltd., opened a branch in Colombo; and on May 3, 1922, the P. & O. Bank opened a branch in Colombo.

In November, 1932, a motion was moved by a Member of the State Council that " A Commission should be appointed to go into the system of Commerce, Banking and Insurance of this island ".

The late Sir Sorabji Poehkbanawala, Managing Director of the Central Bank of India, was appointed Chairman, with the late Sir Marcus Fernando and Dr. S. C. Paul as the other Commissioners.

The Report of the Commission in which the Commissioners recommended the formation of a State-aided Bank was issued as a Sessional Paper in December, 1934.

The Bank of Ceylon was established under Ordinance 53 of 1938 and commenced business with the public on August 1, 1939. The Capital issued was, 30,000 Preference shares of Rs. 50 each and 30,000 Ordinary shares of Rs. 50 each. The total amount received on account of capital is Rs. 2,250,000 made up as follows :— Preference 30,000 shares of Rs. 50 each, fully paid... Rs. 1,500,000. Ordinary : 30,000 shares of Rs. 50 each, Rs. 25 called and paid....Rs. 750,000. Total Re. 2,250,000. The balance of Profit' and Loss Account at September 30, 1943 was Rs. 320,633.48.

The Ceylon State Mortgage Bank was started on December 5, 1931 and on September 30, 1933 it had lent Rs. 12,431,351 on the security of 64,931 acres of land (including 12,265 acres of tea, 12,385 acres of rubber. and 21,117 acres of coconut) and house property. The loans are financed by debentures, and the bank's debentures are readily taken up. The net profit for the year ended September, 1943 was Rs. 46,328-19.

Since the absorption of the P. & O. Bank by the Chartered Bank as from February 1, 1934, there are five Exchange banks, namely : The Mercantile Bank, the National Bank, the Chartered Bank, The Hongkong and Shanghai Bank and the Eastern Bank.

The Indian Bank has local branches and so has the Bank of Chettinad.

Two small local banks, serving the planting industry in particular, are the Bank of 13vs, and the Hatton Bank. They have a good record of successful management and are European concerns.

The banking business of Messrs. Thomas Cook & Son (Bankers) Ltd. was taken over by Messrs. Grindlay & Co. Ltd. towards the end of last year,

### RULES

*(Under Section 90 (b) of Ordinance No. 16 of 1931)*

1. An applicant for a loan shall pay, for the expenses to be incurred in connection with his application, to the credit of the State Mortgage Bank i. the Bank of Ceylon, Colombo. a sum of Es. 320 or a sum of Rs. 20 plus 2 per cent. of the loan applied for, whichever is less, and shall annex the Bank receipt to his application provided that where the amount of the loan applied for exceeds 2 lakhs of rupees, the sum to be paid by the applicant shall be Rs. 520. The Board, however, for any special reason, may call upon the applicant to deposit a larger sum.

2. If the loan is sanctioned by the Board two per cent. of the loan, and the stamp duty on the mortgage bond, shall be deducted from the loan before payment is made to the applicant.

• 3. In making this deduction credit shall be given for the moneys already paid by the applicant and for the hire of any conveyance supplied by him for the valuation of the security tendered. But where the fee paid by the applicant under Rule 1 is more than 2 per cent. of the loan granted the applicant shall not be entitled to credit for a larger sum than 2 per cent. of the loan, unless the Board decides otherwise in the special circumstances of a case and such decision of the Board shall be final.

4. (1) Where an application for a loan is withdrawn by the applicant or refused by the Board, the *fee* paid by the applicant shall be refunded to him by the Manager, subject to—

(a) a deduction of twenty rupees in any case where the application is withdrawn or refused before a valuator is appointed, or before the application is submitted by the Bank for report on title or for report on the purpose for which the loan is applied for, or on any other matter relevant to the application ; or

(b) a deduction of such own as the Manager in his discretion may consider necessary for meeting any expenses incurred by the Bank in any case where the application is withdrawn or refused after the Bank has taken any of the steps referred to in paragraph (a).

(2) The decision of the Manager as to the sum to be deducted under the foregoing paragraph (b) shall be final.

44. " No applicant for a loan shall be entitled to inspect reports of valutors appointed by the Board or to call for details of expenditure incurred in connection with deposits made by him under Rule 1 of the said rules "

5. If the applicant for a loan takes no steps for three months after receiving intimation that the loan has been sanctioned, to perfect the papers for obtaining the loan, the Board may treat the application as having been withdrawn. The Directors may in their discretion grant a loan after the said period and may impose a fine not exceeding Rs. 200 on the applicant for his delay.

6. In the case of a second or a subsequent application for an additional loan on the same security, the fee payable by the applicant at the time of the application shall be Rs. 75 and shall be deposited by the applicant in the Bank of Ceylon, Colombo, to the credit of the Ceylon State Mortgage Bank. It shall be competent for the Manager to require the applicant to deposit a larger sum, when in the opinion of the Board a larger sum is required for assessment of value or for the investigation of title.

7. Where an additional loan is granted deductions shall be made therefrom in the manner provided by Rule 3.

*(Under Section 90 (c))*

1. Every application for a loan shall be made in the prescribed forms.

2. The applicant shall send along with his application the title-deeds of the property (including probates and letters of administration, and copies of inventories) of the property offered as security and all other instruments relating to the property or to the dealings with and possession thereof which are in his custody, including in the case of property liable to rates or taxes the latest receipt in his possession, with one copy of an index of such papers.

3. The applicant for a loan shall submit along with his application an abstract of title for each property tendered as security. Provided however that the abstract of title may be dispensed with, if in the opinion of the Asst. Manager or the Conveyancer, the documents relating to any security are few and properly arranged, and the title can be conveniently examined without such abstract of title.

4. The abstract shall commence with the earliest deed or document available relating to title.

5. All facts whereon the title depends such as births, marriages, deaths or bankruptcies shall be stated in their order.

6. The abstract shall contain the exact words used in every material part of any document abstracted, so that the title can be examined in a convenient way. It is not sufficient to *give the* effect of a material clause.

7. Tracings of any plans referred to in title deeds shall be inserted at their places in the abstract.

8. The applicant shall produce all the evidence which is necessary to prove the facts stated in the abstracts such as births, marriages, deaths or intestacies. If he is unable to produce evidence to prove any facts the reason for it must be stated.

9. The applicant shall in every case submit an affidavit in support of the statements in the abstract from persons competent to testify to the facts.

10. Where there has been any litigation about the property, particulars of such litigation shall be stated.

11. Extracts from all Registers of Encumbrances, etc., affecting the property, shall be submitted with the application.

12. If the applicant, or any person through whom the title is derived, is subject to any local, personal or foreign laws, the facts should be noted in the proper place in the abstract. Where there is any doubt as to the law applicable, this shall be stated.

13. Where several allotments form one land and are comprised within one plan, the different allotments shall be marked on the plan.

14. If any application is defective or if any other information or material is desirable, the Manager shall call upon the applicant to furnish information or document.

*(Under Section 90 (d) )*

6. Valuators should check their valuation by a consideration of one or more of the following methods :—

(1) The price paid for the same property or a portion of it in recent years after making all necessary allowances for lapse of time, difference of situation and any other possible differences between the property sold and that offered as security. Inquiry should be directed to ascertaining—

- (a) Whether for any special reason the purchaser has paid a fancy price for it ; and
- (b) Whether there has been any rise or fall in the value of land in the neighbourhood since the date of his purchase.

(2). The price paid for property of similar description and quality in the vicinity in recent years, after making all proper allowances for lapse of time, advantage of situation, etc. In considering such sales, care should be taken to exclude all transactions in which, taking advantage of the pressing need of the buyer, the seller obtained as the price of the land a much larger amount than its proper value. The buyer may have paid the particular price for the land because no other land suited his requirements. The value to be fixed by the Bank will, however, be only such an amount as the owner would have been likely to get if he had wanted to sell it in the open market and there had been no neighbour compelled by circumstances to purchase it. When considering the case of neighbouring lands which have been sold, the transaction should be compared with the case of the land to be mortgaged to see in what points they do or do not resemble each other.

(3) Sale value of similarly situated property in the vicinity, at an auction.

*(Under Section 91 (e))*

1. Every borrower who makes default in the payment of an instalment upon the due date, and who is given time by the Board to pay such instalment, shall pay, in addition to the amount consisting of the fixed portion of the principal and the interest due up to the date of payment, as required by section 59 of the Ordinance, further interest for the period from the due date to the date of payment calculated—

- (a) in any case where that period does not exceed one month, at the rate of one per centum per annum on the aforesaid fixed portion of the principal ; and
- (b) in any case where that period exceeds one month, at the rate of one per centum per annum on the balance of the principal outstanding at the due date : Provided that in any case where an instalment is not fully paid within a period of one month from the due date, the amount of further interest payable under this paragraph shall not exceed the difference between the amount of the instalment and the part payment made within the period of one month.

(2) Every borrower who makes default in the payment of an amount due by way of an equated payment, and who is given time by the Board to make such payment, shall pay, in addition to that amount—

- (a) in any case where the period from the due date to the date of payment does not exceed one month, interest for that period calculated at the rate of one per centum per annum over and above the rate of interest stipulated in the Bond, on that part of the equated payment which consists of principal ; and
- (b) in any case where that period exceeds one month, interest calculated at the rate of one per centum per annum on the balance of the principal outstanding on the due date aforesaid: Provided that in any case where an equated payment is not fully paid within a period of one month from the due date, the amount of interest payable under this paragraph shall not exceed the difference between the amount of the equated payment and the part payment made within the period of one month.

*(Under Section 91 (f))*

The charge recoverable for advertising the sale of a land and selling the land under Section 94 of the Ordinance shall not exceed one per cent. of the loan or Rs. 500, whichever is less.

*Payment of Interest on Debentures*

The Bank will pay to registered holders of debentures interest at the rate of 3 per cent. per annum by half-yearly payments on the 31st day of March and 30th of September in each year.

*Maximum Amount of Loan*

The amount on loan from the Bank to any person at any one time shall not exceed Rs. 1,000,000.

## GOVERNMENT LOAN BOARD

Loans are made by the Commissioners of the Loan Board under authority vested in them by "The Loan Board Ordinance, 1865." The Deputy Financial Secretary, the Postmaster-General and the Solicitor-General at present constitute the Board.

2. No loan can be granted on speculative property.

3. Any person desirous of obtaining a loan should make application to the Secretary to the Board. He will forward a printed form to be returned to him duly filled in, giving the required particulars of *the* security.

4. No loan may exceed one-half of the appraised value of the property to be hypothecated, and no mortgage except a primary mortgage of a freehold property will be accepted.

6. The rate of interest to be charged is decided in each case by the Commissioners personally, who take into consideration the class of security tendered, and the amount of loan required. The present rates of interest on loans on property within the Municipal limits of Colombo, Kandy and Galle and the administrative limits of any Urban District Council in the Western Province, are as follows :—On loans under Rs. 5,000, 6 p.c.; Rs. 5,000 and under Rs. 10,000, 5 p. c. ; Rs. 10,000 and under 50,000, 5 p.c. ; Rs. 50,000 and over, 4 p. c. Outside the Municipal limits of Colombo, Kandy and Galle and the administrative limits of the Urban District Council in the Western Province the rate of interest is 7 p. c. But the commissioners may in their discretion reduce the rate according to the circumstances of the loan.

6. If the Board is satisfied as to the general character of the security offered the applicant will be requested to send the title deeds to the Secretary with the fee payable to the Board's lawyers for examination of title. The fee for examination of title will vary from Rs. 21 to Rs. 52'50 according to the amount of the loan and the number of titles.

7. If the title is reported to be satisfactory by the lawyers, the property will then be appraised by one or more of the Loan Board appraisers. The *fee* for appraisal and actual travelling expenses of the appraisers must be paid by the applicant: The fee for appraisal shall be one p. c. on the first Rs. 2,000 and 1 p. c. on sums above on the amount applied for, the minimum *fee* being Rs. 20.

8. When a loan has been authorised by the Commissioners, the Secretary will inform the applicant of the amount sanctioned, the rate of interest, and the terms of repayment and, if the applicant desires to accept the loan, the necessary mortgage bond will be prepared and attested by the Notary of the Board.

9. All expenses attendant on the legal completion of the loan must be borne by the borrower, who will also be required to have the property insured against fire for a sum not less than the amount fixed by the Board and also execute a warrant of attorney to confess judgment.

10. The loans are repayable in 15 equal annual instalments commencing two years after date of loan as agreed upon when the loan is granted, but in order to ensure strict observance of the conditions on which the loan is granted, the bonds are so drawn that the loan is repayable on demand.

11. Interest is payable monthly on the first of the month following the period for which it is due.

Emigration of assarted emigrant labourers from India is regulated by the Indian Emigration Act of 1922 and the Emigration Rules of 1923. Immigration of the same Class into Ceylon is governed by the Labour Ordinances Chapters 111 and 112 and the rules made thereunder.

[The Government of India has imposed a ban on immigration from India as from 1st August, 1939].

The official responsible for the administration of the above laws and rules are :—

### Under the Indian Government

**In INDIA.**—(Madras Presidency). The Commissioner of Labour, Madras and the Protectors of Emigrants. The former is a departmental head and has general charge of the administration of the Emigration Laws in this Presidency. The Protectors of Emigrants are stationed at Ports, to inspect and pass emigrants, and to decide the cases of those who claim to be non-emigrants. These officers do not come into direct contact with employers in Ceylon.

**IN CEYLON.**—The Governor-General in Council is authorized to appoint an Agent, to reside in Ceylon and to carry out there the duties of his position. These are the endorsement of recruiting licences issued by the Controller, the inspection of labourers, and the conditions of their life in Ceylon, and the rendering of reports on the subject to the Government of India. A member of the Indian Civil Service has been appointed to the position and he has his offices in Kandy. Under Ceylon Ordinance Chapter 111, Clause 8, the Agent has the same powers as the Controller of Labour and his officers in regard to the entry and inspection of places of employment, the labourers thereon, and the conditions of their lives and employment.

### Under the Ceylon Government

**IN CEYLON.**—The Controller of Labour, head of the department of that name, and Chairman of the Board of Indian Immigrant Labour.

It is the duty of the Controller to carry out the provisions of all ordinances relating to Indian immigrant labourers.

The Controller assesses and collects the amounts due from employers as contribution to the Immigration Fund, and is in charge of administration of the Fund. In this he is advised by the Board of Indian Immigrant Labour, to which the Governor may appoint any number of persons, not less than nine and not exceeding twelve. Two members of the Board must be unofficial members of the State Council.

The Controller's Office is in Secretariat Buildings, Gallo Face, Colombo.

## In India

The Ceylon Emigration Commissioner, appointed by the Ceylon Government, to carry out in India the requirements of the Indian Act and Rules.

The Ceylon Emigration Commissioner is responsible for the endorsement and cancellation of recruiters' licences, for the supervision of recruiters and transport of labourers to the Place of Accommodation established under the Indian Rules at Mandapam or Tataparai, as the case may be. The appointment of Ceylon Emigration Commissioner is a post held by the Ceylon Labour Commissioner.

The Superintendents of Mandapam and Tataparai Camps are appointed by the Ceylon Government and are responsible for the administration of their respective Camps. The Assistant Emigration Commissioner stationed at Mandapam is responsible for the transport of labourers from the Camp to the Railway Station nearest the place of employment. All enquiries regarding the non-arrival of labourers' Immigration certificates, and the card advice regarding despatch should be addressed to the Assistant Emigration Commissioner, Mandapam Camp.

The Ceylon Labour Commissioner, by arrangement with the Government of Ceylon, renders to the Ceylon Emigration Commissioner all the assistance needed in regard to the examination of all emigrant labourers presented at its various agencies by licensed recruiters, the examination of non-emigrant labourers and the transport of labourers (emigrant or non-emigrant) therefrom, the issue of licences and the supervision of licensed recruiters in regard to all employers who contribute to the Immigration Fund. In addition to these duties it carries on the business of Financial and Forwarding Agents in India, for all estates coming to the Coast Agency Scheme, and makes payments, facilitates transactions, carries out village enquiries, purchases estate requirements in India and acts in every way that may be required as the Agents in India of its constituents.

## Administration in Ceylon

**TILE IMMIGRATION FUND.**—The fund was established under Ordinance No. 1 of 1923 in Ceylon, and is maintained for the following purposes :—

- (a) The recruitment of Indian immigrant labourers, in prescribed manner.
- (b) The payment of any prescribed allowance to such labourers in the (N.B.—No allowance to labourers has been prescribed).
- (c) The accommodation, subsistence, and transportation of such labourers and their reception by the employer to whom they have been allotted.
- (d) The payment of any charges imposed by the Government of Ceylon in respect of any person emigrating from India.
- (e) The repatriation of such labourers and their dependents as provided.
- (f) The payment of any prescribed allowance payable to any employer in respect of each such labourer recruited.
- (g) The salary of the Emigration Commissioner and the emoluments of all persons employed under him for the purpose of supervising and controlling the recruitment of labourers and the expenses attendant upon such supervision and control.

It is financed by a contribution made by employers, which is fixed from time to time by the Governor in Council. Assessment of the amount due is made by the Controller and the assessed amount is collected by him. All correspondence on this subject should be addressed to the Controller.

It is the duty of the employer to forward to the Controller, quarterly, a return showing the requisite details of the estate. The return for each quarter of the year must be sent in on or before the last day of the following month, e.g., the return for the 3rd quarter on or before 31st October, etc.

## The Ceylon Labour Commission

The Ceylon Labour Commission was instituted on the 1st June, 1904.

The Commission exists to watch over the interests of Ceylon estate labourers in South India, and it is controlled by the Coast Agency Committee of the Planters' Association of Ceylon.

The expenses are met from an acreage cess derived from those estates supporting the Commission.

Only estates which are members of the Planters' Association of Ceylon are eligible as constituents of the Commission, all particulars regarding which can be obtained from the Secretary of the Planters' Association of Ceylon, Kandy.

## Object and Scope

The acreage supporting the Commission approximates 600,000 acres and Tamil labourers for Ceylon estates pass through the Commission. By virtue of an agreement between the Government of Ceylon and the Planters' Association of Ceylon the Commission at present provides the Ceylon Emigration Commissioner, who also holds the post of Ceylon Labour Commissioner, with the assistance necessary to carry out the Indian Emigration Rules,

The Commission undertakes many and varied duties on behalf of its constituents and among the cases handled for estates, kanganies and labourers are:— Payments, pensions or other regular allowances, promissory notes, payment of Customs duty, mortgages, purchase and sale of lands, purchase of cloths and umbrellas, income-tax cases, land acquisition cases, insurance policies—settlement and enquiries, enquiries on behalf of estate investors re Indian companies, settlement of village disputes, medical attention, free legal advice, enquiries re health of estate employees, despatch of estate superior staff, help to widows and orphans, building of houses, and search for missing relatives.

The organization of the Ceylon Labour Commission enables it to carry out these cases with the minimum of expense and the maximum of result.

The conditions on Ceylon estates are fully explained to all who emigrate, and they are carefully watched and protected from exploitation until they reach the Railway Station most convenient to their estates.

### Organization

The Head Office is at Trichinopoly and is under the personal control of the Commissioner. There are 14 Ceylon Labour Commission Agencies which are under the control of Head Office.

#### Trichinopoly Depot

All labourers from Agencies other than Arantangi, Pudukkottai, Madura and Tinnevely pass through this main Depot where they are medically examined and their registration particulars checked.

#### Mandapam Camp

This is a Government Institution under the immediate control of a Ceylon Government official, (tilt) Ceylon Emigration Commissioner exercising supervision over work under the Emigration Rules. Here an Agency of the Commission is maintained and the staff examine every labourer arriving at Mandapam. supervises all payments in respect of them and issues cumblia. The Camp has been licensed by the Government of Madras as a Place of Accommodation for emigrants and the Protector of Emigrants for the Port of Dhanushkodi has an office available therein to carry out his duties of inspection.

#### Colombo Estate Labour Depot

An Agency of the Ceylon Labour Commission is maintained within the Depot which is situated near Colombo Fort Station and is intended to serve labourers proceeding to South India from districts served by the Coast and Lelani Valley Railways. Such labourers having to pass through Colombo on their way to Coast will be fed and their Railway tickets purchased for them on estate account by the Colombo Agent, provided they hold a Fare and Meal Order, books of which may be obtained from the Head Office at the cost of cents fifty each.

## Wages Boards Ordinance

(No. 27 of 1041)

The following are the provisions under the above Ordinance :

1. Every employer in every trade shall comply with the following provisions of this section regarding the payment of wages to every worker employed by him : -

- (a) He shall, subject as hereinafter provided, pay such wages in legal tender directly to the worker, without any deduction other than an authorised deduction, as hereinafter defined, made with the consent of the worker :

Provided that the aggregate of the deductions so made at any one time shall not exceed one half of the wages due :

Provided, further, that nothing in the preceding provisions of this paragraph shall affect or be deemed to affect—

- (1.) Any deduction authorised to be made from such *wages* by the Income Tax Ordinance or any other written law ; or
- (ii.) Any retention or payment of the whole or any part of such *wage* made in pursuance of or in compliance with any order, process or decree made or issued by any court of law.

In this paragraph, "authorised deduction" means any deduction in respect of-

- (i.) Any advance of money made by the employer to the worker ; or
  - (ii.) Any such other matter as may be prescribed.
- (b) Where the period of the contract under which any worker is employed does not exceed one week, he shall pay the *wages* of that worker within three days of the end of such period ; where the period of such contract exceeds one week but does not exceed two weeks, he shall pay such wages within five days of the end of such period; where the period of such contract exceeds two weeks and does not exceed one month, he shall pay such wages within ten days of the end of each such period ; and where the period of such contract exceeds one month, he shall pay such wages within ten days of the end of each month :

Provided, however, that *where* owing to the absence of any worker or to any other unavoidable cause, it is not possible to pay the wages of any worker within the time limited by this paragraph, he may retain such wages and shall thereafter pay such wages to that worker at the earliest possible opportunity.

Nothing in this paragraph shall in any way affect the period of notice or warning necessary under any provision of written law other than this Ordinance for the termination of any contract.

2. Every employer in every trade shall keep a clear and accurate record in writing showing all wages paid by him to workers employed by him, the deductions made by him from such *wages*, and the dates on which such wages were paid. Every employer shall produce such record for inspection when required to do so by the Controller or any prescribed officer.

3. Every employer who fails to comply with any provision of this Part of this Ordinance shall be guilty of an offence and shall be liable to a fine not exceeding five hundred rupees or to imprisonment of either description for a term not exceeding six months or to both such fine and imprisonment.

4. (1) With effect from the date on which a decision of a Wages Board under section 23 comes into force in respect of any trade, the provisions of paragraph (b) of section 2 shall cease to have any effect in respect of that trade, in so far as they are inconsistent or in conflict with any such decision.

(2) The provisions of section 3 shall cease to have effect in respect of any trade with effect from the date on which a form of register under section 36 is prescribed for that trade.

[Part II. of the Ordinance gives the provisions relating to particular trades and Part III, *gives* the appointment and powers of officers, etc.]

#### OTHER LABOUR ORDINANCES.

Among other Labour Ordinances enacted from time to time are the following :-

- (1) An Ordinance to consolidate and amend the law relating to servants, labourers, and journeymen artificers under contracts for hire and service ;
- (2) An Ordinance amending the law relating to Indian Labourers employed on Ceylon estates ;
- (3) Regulations under the Labour Ordinance, in regard to Indian Immigrant Labour.

# Workmen's Compensation

## REPORTS AND RETURNS

Where a workman has been injured as a result of an accident occurring on the business premises of his employer or arising out of and in the course of his employment, and either dies within a period of seven consecutive days next succeeding that on which the accident occurred or absents himself from work for that period, his employer shall report the occurrence and the particulars of &Loh accident to the Commissioner in the prescribed form within a period of fourteen days reckoned from the date on which the accident occurred.

Every employer shall before the prescribed date in every year send to the Commissioner a correct return in the prescribed form specifying—

- (a) the injuries in respect of which compensation has been paid by him or by any insurer with whom he has entered into a contract in respect of any liability under this Ordinance during the year preceding that in which the return is made ; and
- (b) the amount of such compensation ; and
- (c) such other particulars in respect of such compensation as the Commissioner may require :

Provided that any further particulars required by the Commissioner under clause (c) of this sub-section may be furnished after the prescribed date and within such period as the Commissioner may appoint.

Every employer who contravenes or fails to comply with any of the provisions of this section shall be guilty of an offence and shall, on conviction after summary trial by a Police Magistrate, be liable to fine not exceeding fifty rupees:

Provided that no employer shall be guilty of a breach of sub-section (1) if he proves that he had no knowledge of the accident within the period of fourteen days mentioned in that sub-section.

Nothing in this Ordinance contained shall be deemed to confer any right to compensation on a workman in respect of any injury if he has instituted in a civil court an action for damages in respect of the injury against the employer or any other person ; and no action for damages shall be maintainable by a workman in any court of law in respect of any injury—

- (a) if he has instituted a claim to compensation in respect of the injury before a Commissioner ; or
- (b) if he has agreed with his employer to accept compensation in respect of the injury in accordance with the provisions of this Ordinance.

## POWER OF COMMISSIONER

Where a Commissioner receives information from any source that a workman has died as a result of an accident arising out of and in the course of his employment, he may send by registered post a notice to the workman's employer requiring him to submit, within thirty days of the service of the notice, a statement, in the prescribed form, giving the circumstances attending the death of the workman, and indicating whether, in the opinion of the employer, he is or is not liable to deposit compensation on account of the death.

If the employer is of opinion that he is liable to deposit compensation, he shall make the deposit within thirty days of the service of the notice.

If the employer is of opinion that he is not liable to deposit compensation, he shall in his statement indicate the grounds on which he disclaims liability.

Where the employer has so disclaimed liability, the Commissioner, after such inquiry as he may think fit, may inform any of the dependants of the deceased workman that it is open to the dependants to prefer a claim for compensation, and may give them such other or further information as he may think fit.

Where any person (called "principal") in the course of or for the purpose of his trade or business contracts with any other person (called "contractor") for the execution by or under the contractor of the whole or any part of any work which is ordinarily part of the trade or business of the principal, the principal shall be liable to pay to any workman employed in the execution of the work any compensation which he would have been liable to pay if that workman had been immediately employed by him; and where compensation is claimed from the principal, this Ordinance shall apply as if references to the principal were substituted for references to the employer except that the amount of compensation shall be calculated with reference to the wages of the workman under the employer by whom he is immediately employed.

#### PROCEEDINGS BEFORE COMMISSIONERS

If any question arises in any proceeding under this Ordinance as to the liability of any person to any compensation (including any question as to whether a person injured is or is not a workman), or as to the amount or duration of compensation (including any question as to the nature or extent of disablement), or as to the age of any workman or dependant, the question shall, in default of agreement, be settled and determined by a Commissioner.

A Commissioner shall have all the powers of a civil court under the Civil Procedure Code, 1889, for the purpose of taking evidence on oath (which such Commissioner is hereby empowered to impose) and of enforcing the attendance of witnesses and compelling the production of documents and material objects; and a Commissioner shall be deemed to be a civil court for all the purposes of section 147 and Chapter XXIV of the Criminal Procedure Code, 1898.

#### INSURANCE

It shall be lawful for the Commissioner on payment to him of the prescribed fees, to issue a licence to any person to undertake insurance against liabilities to workmen which may be incurred by employers under this Ordinance, if it is shown to his satisfaction, after such inquiry as he may think fit to make, that such person is financially able to undertake such insurance.

#### LIABILITY TO PAY COMPENSATION

If personal injury is caused to a workman by accident arising out of and in the course of his employment, his employer is liable to pay compensation in accordance with the provisions of Ordinance No. 19 of 1934.

'Provided that the employer shall not be so liable—

- (a) in respect of any injury which does not result in the total or partial disablement of the workman for a period exceeding seven days;
- (b) in respect of any injury, not resulting in death, caused by an accident which is directly attributable to-
  - (i) the workman having been at the time thereof under the influence of drinks or drugs, or
  - (ii) the wilful disobedience of the workman to an order expressly given, or to a rule expressly framed, for the purpose of securing the safety of workmen, or
  - (iii) the wilful removal or disregard by the workman of any safety guard or other device which he knew to have been provided for the purpose of securing the safety of workmen.

If a workman, employed in any employment involving the loading, unloading, handling or transport of wool, hair, bristles, or animal carcasses or parts of such camases, or in any work in connection with animals infected with anthrax, contracts the disease of anthrax, or if a workman, whilst in the service of an employer in whose service he has been employed for a continuous period of not less than six months in any process mentioned in the Schedule III. of the Ordinance contracts the occupational disease the contracting of the disease shall be deemed to be an injury by accident within the meaning of para 1 above and, unless the employer proves the contrary, the accident shall be deemed to have arisen out of and in the course of the employment.

For the purposes of this section a period of service shall be deemed to be continuous which has not included a period of service under any other employer.

Save as provided by para above no compensation shall be payable to a workman in respect of any disease unless the disease is directly attributable to a specific injury by accident arising out of and in the course of his employment.

#### AMOUNT OF COMPENSATION

(1) Subject to the provisions of the Ordinance, the amount of 'oompen sation payable is as follows:

A. Where death results from the injury-

- (i) in the cage of an adult in receipt of monthly wages falling within limits shown in the first column of Schedule IV—the amount shown against such limits in the second column thereof, and
- (ii) in the case of a minor—two hundred rupees. •

B. Where permanent total disablement results from the injury-

- (i) in the case of an adult in receipt of monthly wages falling within limits shown in the first column of Schedule IV—the amount shown against such limits in the third column thereof, and
- (ii) in the ease of a minor—twelve hundred rupees

C. Where permanent partial disablement results from the injury-

- (i) in the case of an injury not speeifitkl in Schedule I, such percentage of the compensation which would have been payable in the case of permanent total disablement as is specified therein as being the percentage of the loss of earning capacity caused by that injury, and
- (ii) in the ease of an injury not specified in Schedule I, such percentage of the compensation payable in the case of permanent total disablement as is proportionate to the loss of earning capacity permanently caused by the injury;

Provided that in a case where more injuries than one are caused by the same accident, the amount of compensation payable under this head is *aggregated* but not so in any case as to exceed the amount which would have been payable if permanent total disablement had resulted from the injuries.

D. Where temporary disablement, whether total or partial, results from the injury, a half-monthly payment payable on the sixteenth day after the expiry of a waiting period of seven days from the date of the disablement, and thereafter half-monthly during the disablement or during a period of five years, whichever period is shorter

- (i) in the case of an adult in receipt of monthly wages falling within limits shown in the first column of Schedule IV—of the sum *shown* against such limits in the fourth column thereof, and
- (ii) in the case of a minor—of one-half of his monthly wages, subject to a maximum of thirty rupees :

Provided that—

- (a) there shall be deducted from any lump sum or half-monthly payments to which the workman is entitled the amount of any payment or allowance which the workman has received from the employer by way of compensation during the period of disablement prior to the receipt of such lump sum or of the first half-monthly payment, as the case may be ; and
- (b) no half-monthly payment shall in any case exceed the amount, if any, by which half the amount of the monthly wages of the workman before the accident exceeds half the amount of such wages which he is earning after the accident.

In a case where for the whole or any part of the period of disablement referred to in paragraph (a) of this proviso, a workman occupies any premises belonging to or provided by his employer and pays no rent to him for such occupation, the amount fixed by agreement between the workman and his employer or failing such agreement, the amount determined by the commissioner as a fair rental of the premises for the period of such occupation shall be deemed to have been received by the workman as an allowance by way of compensation from his employer for the purpose of computing the deduction to be made from any lump sum or half-monthly payments to which the workman is entitled.

(2) On the ceasing of the disablement before the date on which any half-monthly payment falls due, there shall be payable in respect of that half-month a sum proportionate to the duration of the disablement in that half-month.

(3) The use in this section of the expression 'monthly wages' shall not exclude any workman from the right to compensation under this Ordinance by reason only of the fact that he is not paid at a monthly rate or that his remuneration is calculated by time or by work done or at a daily rate.

#### PAYMENT OF COMPENSATION

The compensation shall be payable to or for the benefit of the workman, or, where death results from the injury, to or for the benefit of his dependants as provided by this Ordinance.

Where a dependant dies before a claim under this Ordinance is made or, if a claim has been made, before an agreement or award has been arrived at or made, the heirs, executors, or administrators of that deceased dependant shall have no right to payment of compensation. and the amount of compensation shall be calculated and apportioned ' as if that dependant had died before the workman.

Where there are both total and partial dependants, nothing in this Ordinance shall be construed as preventing the compensation being allotted partly to the total and partly to the partial dependants.

## Trade Unions

*Ordinance No. 14 of 1935 provides for the Registration and Control of Trade Unions.*

The Registrar of Trade Unions, an officer appointed by the Governor, must keep a register of Trade Unions, in which he will enter the prescribed particulars relating to Trade Unions, and any alteration or changes which may be effected from time to time.

Every Trade Union established before the date of the commencement of this Ordinance shall apply to be registered *within three months* reckoned from that date; and every Trade Union established after the commencement of this Ordinance shall apply to be registered *within three months* of the date on which it was so established.

Every application for registration of a Trade Union must be made to the Registrar in the prescribed form and must be signed by at least seven members of the Union.

The application for registration must have stamps to the value of Re. 1/, It must be accompanied by a copy of the rules of the Trade Union and a statement of the following particulars:

- (a) Names, occupations and addresses of members making the application;
- (b) Name of the Trade Union and address of its Head Office;
- (c) The titles, names, ages, addresses and occupations of the officers of the Trade Unions.

The Registrar on registering a Trade Union shall issue a certificate of registration in the prescribed form, which will be conclusive evidence that the Trade Union has been duly registered under the Ordinance.

### NUMBER OF TRADE UNIONS

The number of Trade Unions registered under the Ordinance since 1935 is as follows:—

|   |     |     |       |    |         |
|---|-----|-----|-------|----|---------|
| 1935  | ... | Nil | 11937 |    | 10      |
| (Ordinance came into operation on Nov., 1935) |     |     | 1938  | r. |         |
|   |     |     | 1939  |    | ... nil |
| 1936  | ... | 28  | 1940  | ♦  | ... 25  |

Of this total, nine Unions were dissolved or their registration was cancelled, thereby leaving a balance of only 58 at the end 1940.

## MINES AND MACHINERY PROTECTION

### Some of the Rules Relating to Factories

In these rules, unless the context otherwise requires—

"Child" means a person under the age of 14 years.

"Young person" means a person who has ceased to be a child and who is under the age of 18 years.

"Woman" means a woman of 18 years of age or upwards.

"Machinery" includes any driving strap or band.

"Mill-gearing" comprehends every shaft, whether upright, oblique or horizontal, and every wheel, drum, or pulley by which the motion of the first motive power is communicated to any machine.

"Licensed Engineer" means an engineer licensed by the Director of Public Works in accordance with rule 7.

1. It shall be the duty of all superintendents and managers to observe the following rules relating to the safety of persons employed in factories, and imposing restrictions on the working of women and children:—

- (a) Every part of a steam, gas, or oil engine, electrical motor, dynamo, waterwheel, or any other form of prime mover shall be securely fenced.
- (b) Every wheel race, pit, well, vat, or other dangerous cavity not otherwise secured shall be securely fenced close to the edge thereof.
- (c) Every shaft, wheel, drum, pulley, belting, rope, or chain driven in any way whatever within a distance of 8. ft. from the floor shall either be securely fenced, or be in such a position or of such construction as to be as safe to every person employed in the factory as it would be if it were securely fenced.

- (d) All fencing in the case of machinery on the floor shall be of wood 3 ft. 6 in. high, posts 3 in. by 3 in., top rail 3 in. by 2 in intermediate rails, two in number, 2 in. by in. Iron may also be used, in which case it must not be less than 1 in. in diameter or equivalent section. All fencing shall be maintained in good repair.
- (e) All wires conveying electrical current from the dynamo to the motors or lamps shall have highly insulated covering so as to render them safe.
- (f) Every main switchboard shall be under lock and key, and bear clear instructions for its use.
- (g) No child, young person, or woman shall be allowed to (dean any part of the machinery or of the mill-gearing in a factory while the same is in motion.
- (h) No child, young person, or woman shall be allowed to work between fixed and traversing parts of any self-acting machine while the machine is in motion.

2. (a) It shall be the duty of the superintendent or manager of every factory to see that no person shall be allowed to have, nor shall have, control over a boiler to be used for generating steam for the purpose of driving machinery, unless such person produces a certificate of competency from an engineer licensed to issue certificates as to the fitness of boilers and the competency of the persons in charge thereof. The certificate of competency is to be kept in the factory.

(b) It shall be the duty of the superintendent or manager of every factory, on or before June 30 in each year, to forward to the Government Agent of the Province wherein such factory is situated a true copy of each of the certificates of competency granted to persons employed by him in such factory and also to forward to such Government Agent, within one month of the granting of such certificate, a true copy of each certificate of competency issued after June 30 in each year in respect of all persons who are subsequently permitted to have the control of any boiler. Such true copies of the certificates of competency are to be filed in the Provincial office.

3. It shall be the duty of the superintendent or manager of every factory on or before June 30 in each year, to forward to the Government Agent of the Province wherein such factory is situated a certificate of inspection and compliance signed by a licensed engineer.

4. (a) No superintendent or manager of a factory shall allow any boiler to be used for generating steam for the purpose of driving machinery, unless he can produce a boiler certificate from an engineer specially licensed to issue certificates as to the fitness of boilers and the competency of the persons in charge thereof.

(b) On or before June 30 in each year it shall be the duty of all superintendents and managers of factories in which boilers are used as aforesaid to report in writing to the Government Agent of the Province the names and situations of the factories in their charge, and to send a copy of a certificate for each boiler granted by an engineer specially licensed to issue certificates as to the fitness of boilers and the competency of persons in charge thereof, and the Government Agent shall cause the same to be registered and numbered. When any new factory in which a boiler is used as aforesaid is opened, or whenever a new boiler is erected in a factory after the said date, the superintendent or manager shall forthwith report the same and forward a copy of the boiler certificate in manner aforesaid.

5. It shall be the duty of all superintendents or managers of factories to cause to be delivered to the Government Agent of the Province within one month of the cessation of work, a notice intimating that work in the factory has been stopped.

6. (a) It shall be the duty of all superintendents and managers of factories, when any new factory in their charge is opened in which mechanical motive power is made use of, to cause to be delivered to the Government Agent of the Province within one month of the commencement of work, a notice intimating that work has been commenced.

(b) if work is resumed in the factory, a notice substantially must be sent to the Government Agent of the Province within one month of the resumption of work intimating that work has been recommenced.

7. The Director of Public Works may license any engineer to issue certificates as to the fitness of boilers and the competency of persons in charge thereof and as to the compliance of a factory with safeguards.

# **PUBLIC INSTITUTIONS**

*an example*

*from fauns*

In these times of stress, we might do well to take an example from Janus and look backward and ahead.

We look **BACKWARD** to over 90 years of retailing in Ceylon — the reputation we have built up through these years for quality merchandise and service that does not stop with a sole • • • and not least of all, to the Island-wide goodwill and confidence that we've enjoyed.

And **looking AHEAD**, we feel confident that the time is not far off when the final blow against Hitler, Hirohito & Co., will have been struck and peace and normal trading conditions return. In those happier days to come, it will be our pleasure to bring you once again all the time-tested favourites for which our Stores are famous and which are difficult to get these days *plus* new, more varied and finer merchandise from the world's markets.

## Sport and Recreation in 1943

Ceylon Cricket continues to flourish like the green bay tree, although so many clubs are at a disadvantage, lacking the use of their grounds and pavilions that are serving other purposes. Most of our cricketers had to go without regular practice and are content to turn out for matches without the usual preparation at the nets.

The year 1943 has seen cricket in Ceylon enjoying a large measure of popularity despite counter attractions. The S. S. C. ground, the Oval, the Sports Club ground on Galle Face, the old C. C. C. ground in the Cinnamon Gardens and the Railway ground at Mt. Mary have been the scenes of most of the matches played during the past year.

The C. C. A. as in 1911/2, took its share in organising a Tournament in which both the leading Ceylonese clubs and teams drawn from the Services took part, There were also other special fixtures played during the year, like the big Inter-school match between Royal and St. Thomas', a match between the St. Joseph's College XI., who were unbeaten in the school cricket season, and a team of the Rest of the Schools got together by Mr. S. P. Foenander and other representative games that attracted large crowds. On the Colombo Oval the biggest cricket crowd of the year saw St. Thomas' defeat Royal very decisively.

### CLUB CHAMPIONS

Once again, the Sinhalese Sports Club were the strongest side in Ceylon" They had the assistance of some of the best players in the Island like F. C. de Saram, S. S. Jayewickreme, George Pereira, Percy Perera, Hector Fevers. Ben Navaratne, B. Wijewardene, J. A. de Silva, Dr. C. H. Gunasekera. L. D. S. D-anasekera, L. E. de Soysa, and Ryle de Soysa and it is no wonder they were a hard side to beat. They have a good many promising players coming along like G. Dalpathadu, Milton Fernando, and L. Fernando.

S. S. Jayewickreme once again was the outstanding batsman in Ceylon. The S. S. C. crack scored over one thousand runs, his innings of 137 against the Colts C. C. being his 24th in first class cricket in Ceylon. This is a Ceylon record.

Dr. C. H. Gunasekera, one of the oldest first class cricketers in Ceylon, was again in good batting form, his highest score being 111, compiled against the Warblers C. & A. C. F. C. de Saram, the old Oxford Blue, though short of practice, proved his class when he scored 148 for the C. D. F. It will be remembered that in the previous Tourney de Saram led the C. D. F. to victory in the Final.

Among the other leading batsmen of the past year have been M. Sathasivam, R. A. K. Solomons, B. R. Heyn, N. Gooneratne, Desmond Gunasekera, Robert Fernando, C. S. Harrison. of the Army and Worcestershire, who scored over 1,000 runs, L. Foster, Thompson of the ROyal Marines, E. F. E. de Kretser, and D. Sylva. Among the best of the younger 'batsmen were L. Jacobs, a left-hander, G. P. Schoorman, and O. W. Kern of the Vikings, Frank Pereira of the C. R. N. V. R., C. Gunaratnam of the Education Department, and Makeen Salih.

### LEADINO Bow LEES

The only bowler to take all ten wickets in an innings was Jelly of the Royal Navy. Desmond Gunasekera captured 9 wickets for 15 runs against the Warblers, while Tallon, of the Army, took 8 wickets for 21 avast the Bloomfield.

The hat-trick was performed by D. S. Jayasundera (for the fifth time in first class cricket), by D. J. O. Gray of the C. C. C., C. P. G. Abeywardena for the S. S. C. *vs.* Police, George Pereira for the S. S. C. *vs.* the Tamil Union; Rev. R. W. Knight for the C. C. C. and Balakrishnan for the Tamils *vs.* the Vikings.

Among those who have laboured hard and incessantly for the good of cricket in Ceylon. arranging fixtures for the Services and other trains none deserves more credit than S. J. Campbell, the C. C. C. captain and former Sydney cricketer.

The decision of the Ceylon Cricket Association to invite the Cricket Control Board of India to send a team to Ceylon next February, has been hailed with delight by all lovers of cricket in Ceylon.

**RUGBY FOOTBALL**

Rugger is always a very popular pastime in Ceylon, especially among the sporting public who flock to *see* a good game. The past year gave Colombo rugger fans many opportunities of watching some good Rugby Football. Once again, the R. A. F. Harlequins proved themselves the best combination in Ceylon, winning the final in which they defeated Lanka, a naval fifteen. The Harlequins who were runners up to the Lions in the first tournament, beat Vale of Lune in the final of the second tournament,

In three successive tournaments, they suffered only one defeat and that by the narrow margin of a drop goal. A. Pastore, who captained the Harlequins, was the best full back seen in Ceylon for many years. His brother Desmond, P. Herwig and Herbert were the pick of the threes. Cecil and Yendale were a capable pair of halves while the forwards were a grand, fast pack. C. F. Grieve, the old Oxford Blue and Scottish International, was again the outstanding player among the Rhinos who were beaten in the semi-finals.

**Soccca**

The Association game was never more popular in Ceylon than it was last year when the United Services Soccer League conducted more than one tournament with conspicuous success. The R. A. F. were again the outstanding side in the knockout tournaments, Todd and Golding being among the stars of the side. England beat the Africans in the final of the International Tourney and then defeated "The Rest," thus proving themselves the strongest national side. Hannauer, the Dutch goal-keeper, was again in brilliant form. The Royal Navy Tigers proved themselves a very capable side in the "I" Division of the League.

**BOXING**

The Ceylon Amateur Boxing Association staged several very successful meets during the past year. The Layton Cup meets have helped to raise the standard of Amateur Boxing in Ceylon and Ceylonese boxers like Edwin, Albert Perera, who has won the Layton Cup more than once, B. C. Henricus, Ian La Brooy, and F. C. de Niese, have done exceptionally well. The best boxer in Ceylon during the year has been the Yorkshireman Sergeant Harrison who beat Pugsley again. Every meet held in the Town Hall has drawn crowded houses and among those who have watched the boxing have been H. E. the C.-in-C., Sir Geoffrey Layton and H. E. the Governor, who take so keen an interest in all forms of Ceylon sport.

**ATHLETICS**

Though the standard of athletics in Ceylon in 1943 was below that of the best previous years there was much public interest shown in the several meets organised by the Ceylon A. A. A. Sir Geoffrey Layton has never missed attending a single Athletic meet held in Colombo. At the Triangular meet early in the season for the Services the Indian long distance runners were conspicuous. The Public Schools Championships were followed by the Ceylon championships. Both produced keen competition, but nothing remarkable in the way of individual performances, apart from B. C. d' Silva's throw of the Javelin. The last meet of the year was most disappointing owing to the absence of the best of the Services' athletes.

**LAWN TENNIS**

The C. L. T. A. ran a very successful Inter-services team competition at the Garden Club and in this the Navy came out on top, thanks to the fine play of Miss Doreen Sansoni, Mrs. M. D. Dando, H. C. Sansoni, and D. Scharenguivel. Owing to the scarcity of balls, the usual club tournaments in Colombo and outstations, except at Bandarawela, were not held.

**CROSS-COUNTRY RACING**

The Cross-Country race organised by the Ace Athletic Club over a course of five miles was won by the Indian Wanderers with 145 points against 127, scored by the Scarlet Wanderers. M. Nandan was the first to finish the course.

**HOCKEY**

The Conner Cup Tournament was responsible for keeping alive keen interest in Ceylon hockey. The B. N. E. "A" team met the R. A. F. Harlequins in the final in November and won a big victory by 13 goals to 1. The B. N. R. had previously beaten the strong Terrytoons team in the Semi-finals. H. E. the C.-in-C. presented the trophy to the winning team.

A very limited number of In Patients can be admitted to other establishments of the Seamen's Hospital Society. Pathological Services are also being maintained. The special courses in Tropical Nursing are suspended.

Emocamos.—Clinical material continues to be at the disposal of the London School of Hygiene and Tropical Medicine but special financial arrangements with Government Offices and certain commercial Firms remain in force. All communications until further notice to :—Tha Secretary, Seamen's Hospital Society, Greenwich. S. E. 10.

**Lin:SPOOL SCHOOL OF TROPICAL MR MOINE.—**

Arrangements similar to those made with the Seamen's Hospital Society for the admission of officers in the service of the Ceylon Government to their institution in London, have been made With the Incorporated Liverpool School of Tropical Medicine whereby the officers in the service of the Ceylon Government will be admitted to the private wards of the school at the Royal Infirmary, Liverpool. The scale of charges will be the same as provided for in the agreement with the Seamen's Hospital Society, and the School Committee have also agreed to accept the special scale of charges applicable to surgical cases and others in which the disability is not of a nature peculiar to the Tropics. The School has, however, only four private rooms at the Royal Infirmary and can therefore only undertake to admit patients suffering from non-tropical diseases to these wards provided that such cases are few in number and a room is available. This, of course, will not apply to officers in receipt of a salary of less than .2300 per annum, as such officers would be admitted to the ordinary wards. In special cases of emergency the School is prepared to admit patients on the recommendation of their own medical attendant, without reference to one of the Consulting Physicians to the Colonial Office, provided that notice is given by the medical attendant to the Physician in charge of Tropical Diseases Department of the Royal Infirmary.

#### THE TEA REGULATION SCHEME

formally the year April, 1, 1912, to March, 31, 1943, would have been the final year of control, but at the request of the International Tea Committee, the control period was extended for the duration of the war and for two assessment years after the cessation of hostilities.

By the agreement signed on November, 18, 1931, by the producing countries, the standard of each producing country upon which regulation of exports is fixed shall continue to be based on the maximum of exports of tea from each of the producing countries in any one of the three years 1929, 1930 or 1931 and accordingly has been ascertained to be and shall respectively be as follows:—

|                                 |                              |
|---------------------------------|------------------------------|
| (a) India                       | 383,242,916 lbs. Avoirdupois |
| (b) Ceylon                      | 251,588,012 lbs.             |
| (c) Netherlands East Indies ... | 173,597,000 lbs. 17          |

Total 808,427,928

The figure of regulation (i.e. the permissible exportable quantity) for each year of the new period of regulation shall for each of the producing countries continue to be such percentage of the ascertained standard as the Committee with the approval of the respective Governments of the producing countries shall fix either on the 28th February preceding each of such year or as near thereto.

The International Tea Committee recommends to the Governments of the regulating countries, the percentage of permissible exports. The following percentages were fixed for the years mentioned below :—

|           |        |
|-----------|--------|
| 1933-1934 | 85     |
| 1934-1935 | 877    |
| 1935-1936 | 82*    |
| 1936-1937 | 82}    |
| 1937-1938 | 87f    |
| 1938-1939 | 924    |
| 1939-1940 | ... 95 |
| 1940-1941 | 92,1   |

The exportable quota for the period Jam-March 1942 was 110 per cent. From April 1, 1942, the quota was 125 per cent.

### TEA EXPORTS

Publication of export figures for 1942 and 1943 is not permitted. From September 15, 1942, the British Government has been buying the whole Empire Tea Crop.

The total exports of tea from Ceylon up to 1941, according to the Customs accounts, have been as follows :—

### Market

With the operation of the Government scheme all tea was contracted to the Ministry of Food on the basis of prices ruling in 1936, 1937 and 1938 plus 4d. a lb. for the increase in cost of production. An additional *id.* per lb. was paid for all teas which were prompt after May 1. The price for 1942 is basic price plus 61d. an increase of 2d. The increased price will be adjusted up or down on certain fluctuations in the dearness allowance.

The average local prices during the years 1933-42 are given below :—

| 1937 | 156,098,892    | 77,010,122         | 1942-43 | (Publication not permitted) |              |

Tito large decrease in 1932, was chiefly owing to the world-wide trade depression. The decrease in 1918 was due to the removal of Rubber from the Priority List the im Kurt restrictions imposed in the United States of America, and the difficulty of securing freight for foreign countries ; while the decrease in 1923 and 1924 is due to Rubber Control. The value of Rubber exported to foreign countries fell from Ea. 66,864,495 in 1917 to Rs. 24,795,828 in 1918 ; but it went up to Rs.17,078,210 in 1926 the United States of America taking R A.107,921,698 worth. In 1923, it had come down to Rs. 73,985,953, the United States of America taking Rs. 47,756,193 worth ; but in 1929, ithad gone up to Be. 86,630,874. the U.S.A. taking Rs..54,5213,077 worth. In 1930,United States of America took 105,709,498 lbs. valued at only Rs. 29,762,077. The difficult posit'ion in which the war trade conditione bad placed the Rubber industry led to representation being made for the recm otion of the duty, and in order to alleviate the situation it was dec ded in November, 1918, to reduce the export tax from 7. to 3 cents per lb. This was again reduced to cents per lb. in August 1922 ; while in October of the same year an Ordinance was enacted with a view to giving effect to a scheme for the improvement of the condition of the rubber industry throughout the British Empire by restricting the production of rubber, but this restriction was with&awn from November, 1928, and in (1933) the Rubber industry continued to struggle on in a most parlous condition and prices once again touched. low records-the average for smoked sheet being 10 cents for the year 11132; but as already stated, there was a notable improvement in 1933.

On May 7, 1934, an 'agreement between the United Kingdom, India, the Netherlands, and Siam to regulate production and export of Rubber ; in and from their rubber producing territories, for the period from June 1, 1934 to December 31, 1938," was formulated. Its purpose was threefold -namely (a)\* to reduce existing world stocks to a normal figure, (b) to adjust in an orderly manner supply to demand (a) and to maintain a fair and equitable price level which will be remunerative to produce.

Basic quotas for the producing countries were adopted as follows

|                | 1938        | 1939    | 1940    | 1941    | 1942    | 1943    |

#### EXPORTS AND DISTRIBUTION OF CEYLON RUBBER, 1943.

Government restrictions do not permit of the publication of detailed export references. Despite unfavourable weather conditions, Ceylon's rubber output in 1943 was a record one. Ample shipping space was available throughout the year except during the 2nd quarter when stocks were temporarily held up in shippers' godowns.

Since March 1942, the Rubber Commissioner for Ceylon has been the Agent of the Ministry of Supply of the United Kingdom and the sole buyer of the entire output of rubber in Ceylon.

#### LOCAL SALES

For the maximum production of rubber, a scheme of slaughter tapping with capital compensation was introduced and despite agitation for an increase in rubber prices the Secretary of State for the Colonies made a " final decision" in September, 1943, not to increase prices. But, later, the Secretary of State agreed to an increase in the price of rubber by 2d. per lb. in respect of the remaining period of the quarter January-March 1944. The new scheme provided, also, for further increases up to 6d. per lb. over the then ruling price of 14d. based on the production during each quarter, the annual basic production being fixed at an agreed figure. If production falls short of the agreed figure, the price will revert to 14d. The scheme is to operate till June 30, 1945. The minimum prices per lb. payable by shippers to their sellers from February 14, 1944 were : Sheet-Group 1. cts. 83 ; Group 2, cts, 82k ; Group 3, cts. 80.

Group 1, latex crepe cts. 84.

Scrap crepe, Group 1, chi. 78k, Group 2, ate. 73i, Group 3, cts. 69.

From April 1, 1944, the minimum prices payable by shippers to their sellers were Sheet Group 1, Re. 1'05 ; Group 2, Re. 1'041 ; Group 8 Re. 1'02.

Latex crepe : Group 1, Re. 1'06.

Scrap crepe : Group 1, Re. 1'00i . Group 2, eta, 96 ; Group 3, cts, 96.

**DESICCATED COCONUT**

There was no regular market. Price at the opening was nominally 23 cents and rose on the Indian demand to 25 cents. At the close of the year, the price had fallen to 22 cents, shipments to India being affected by the introduction of regulations on the movement of foodstuffs.

Ceylon's exports of desiccated coconuts during the years 193 -1941 are given below

**COPRA**

The Government Purchase Scheme operated throughout the year. the price paid to the producer under the scheme being Rs. 59 per Candy for Estate No. 1. Applications were made to the U. K. Ministry of Food for increase in the control price due to the enhanced cost of production and transport, but the price at the close of the year remained unchanged.

Figures of export during 1941 and 1942 are not available.

Exports of Ceylon Copra during years 1933-41 are given below :-

**EXPORTS**

South Africa was the chief buyer but shipping space was rather restricted-

**BRISTLE FIBRE**

The war with Japan has had a very serious effect as the market, as that country used to take 40 to 4) per cent. of the Bristle exports from Ceylon.

For the first half of the year the price of ordinary 2-tie fluctuated between Rs. 7'50 and Rs. 8'25, demand being from the U. K., and South Africa taking small lots.

**CINNAMON**

During the year, exports moved very slowly and stocks in the Island kept increasing, a fact which made 1943 a very difficult year for shippers, dealers and particularly for producers. Prices under the Government Purohasing Scheme are : Quills 0000 Rs. 1'23 per lb; No. 2 Rs. 1'05 per lb; eatherings cents, 75 per lb; Chips Rs. 312'50 per candy of 5 owt..

**CITRONELLA OIL**

The price continued to be satisfactory to the producer although not to the extent that it was in 1942. With a view to, controlling prices, the British Government fixed an f. o. b. price of 3 sh 2d. per 1 b. for shipments to the U. K. but the scheme was impracticable as local prices are much above this level.

Exports during the years 1933-41 are given below :—

## PLUMBAGO

The liberatio'n of Madagascar, coupled with the results of action taken in America to ensure supplies when it appeared possible that the output from Ceylon might be lost to the United Nations, materially affected the demand for Ceylon plumbago, but during 1943, shipments have exceeded 14,000 tons substantially.

Export figures of plumbago for the years 1933-42 are given below ;—

## RATES OF FREIGHT

UNITED KINGDOM—Rates of freight remained unchanged throughout the year. Space was plentiful though shipments were confined to the priorities listed by the Ministries of Food and Supply and by the Board of Trade.

Exports of rubber, copra, coconut oil, plumbago and kitul fibre exceeded those of 1942, while tea, mattress fibre, bristle fibre, kapok, coir yarn, cinnamon and essential oils were below that year.

CONTINENT.—During 1943 no shipments in Conference vessels took place and rates of freight remained unchanged on a nominal basis.

AUSTRALIA AND NEWZEALAND.—The heavy demand from these countries for Ceylon produce since the fall of Java continued during 1943 Rates of freight remained at 75 per cent. over pre-war levels.

STRAITS, CHINA AND JAPAN.—No shipping opportunities.

SOUTH AFRICA.—The total carryings amounted to 20,686 tons, as against 27,058 tons for 1942. The berthing of tonnage was entirely in the hands of H. M.G. Ministry of War Transports. Sufficient tonnage was provided at fairly regular intervals to lift all the Tea and other cargo covered by essential certificates which was offering for shipment, in addition to service cargo.

AMERICA AND CANADA.—Rates remained unaltered during the year 1943.
